

LEGION SPORTS DAY - TOMORROW

They Used To Be Good

Here they are, boys and girls of yesteryear. Many a time you cheered them on to victory throughout the Fruit Belt in the 100 and 220 yard dashes. That was "Way Back When." They are both hale and hearty and will be at the High School grounds tomorrow at the big Legion Sports Day, but you can bet your last coconut that they will not be doing any sprinting. Now tell us who they are. How long ago was the picture taken?

Make Smart Showing

SCHOOL CADETS IMPRESSIVE BEFORE INSPECTION OFFICER

Major Beale, M.C., Of M.D. No. 2, Congratulates Grimsby Students On Their Snappy Performance—Girls Come In For Praise—Flag Lowering Ceremony.

(By JANIE)

In spite of overcast skies and cold winds Tuesday evening, the Grimsby High School Cadet Corps put on a snappy display for inspecting Officer, Major G. W. Beale, M.C. (Military District No. 2) recently returned from overseas.

A keen interest was taken in the inspection by many spectators including a large number of returned service men and women.

The distinguished officer speaking informally to the cadets stated that he was well pleased with the work of the cadets and that their officers and instructors should be commended. He also praised Company No. 2 (girls) saying that they were outstanding the boys with their excellent marching!

On the reviewing platform besides Major Beale were Captain F. V. Smith and Lieut. Spencer representing Lieut. Col. Morrow (affiliated with the Lincoln and Welland Regiment). After the March Past and General Salute the 27 piece Bugle Band gave a spirited performance, being led by Lieut. Ian Marr.

The corps is composed of a battalion. (Continued on page 10)

Salvage Drive Big Success

Canadian Legion boys had a regular field day last Saturday gathering up salvage in the town and township.

Chairman George Warner reports that the people made a real effort to dig out their old scrap and such like and as a result the Legion will realize a goodly sum for their club house fund after all expenses are paid.

Scrap collected and sold, to date, included 18 old batteries; 5,500 pounds of glass; 2,500 pounds of rags; 11,230 pounds of old iron of all description; paper, 20,435 lbs.

Legion boys say thanks to everybody.

New Resident Buys Business

A. A. Constable Purchases Lincoln Electric Supply From Wm. Clare—Will Continue Westinghouse Franchise.

Mr. A. A. Constable, a new resident of Grimsby, who recently purchased the east half of the Snelinger block, at the corner of Main and Depot streets, has made another Main street purchase. This time he has acquired from Wm. Clare the retail electrical business on Main west, known as the Lincoln Electric Supply, and will continue to operate as heretofore.

Mr. Constable has a four years overseas record and previous to enlistment was the sales manager for the Kitchen, Peabody Overall and Shirt Co., and was Western manager for that firm.

He will continue to give to the Grimsby and district public the same high class line of electrical appliances and service, such as his Westinghouse franchise warrants.

Mr. Clare, who 18 months ago started the Grimsby Wood Products firm has again returned to that business.

The Independent welcomes Mr. and Mrs. Constable and little daughter to Grimsby and wishes him every success.

MILK PRICE WILL RAISE

Grimsby Citizens Will Pay Two Cents More On And After June First—Subsidies Being Cut Off By Government—Producer Subsidy Remains—No Raise For Cream.

Grimsby and district residents are going to pay more for their milk, on and after June 1st. This is caused by the Dominion government taking the subsidies off the summer supply of the lactical fluid.

Russell Terry of the Model Dairy informs The Independent that the increase in Grimsby will be two cents a quart. Milk is now being sold at 10 and one half cents a quart when tickets are purchased and 11 cents a quart for cash. A large percentage of the milk supply is purchased on tickets.

Therefore the new milk prices will be 12 and one-half cents a quart on ticket purchase and 13 cents a quart on cash purchase.

The price of cream is not effected by the milk raise as at no time has the government paid a subsidy on cream.

The whole story as explained by the Ontario Milk Distributors' Association, is as follows:

Since December 16, 1942, the Dominion Government has been paying two subsidies on fluid milk, one to producers and another to the consumers, through the distributors. The latter subsidy of two cents per quart has meant that consumers have been getting their milk two cents below the legal price set by the provincial milk boards.

The Government has now taken three new steps:

It has continued the producer subsidy at 55 cents per cwt., the winter rate, instead of dropping it to 35 cents per cwt. for the summer months, which was the practice heretofore.

In the second place, the consumer subsidy is cancelled as of June 1st, 1946, which will mean an increase of two cents per quart in the price of milk to consumers.

In the third place, there will no longer be a federal ceiling over milk, and price control as between producers and consumers will revert to the provincial milk boards. Their "legal price" will no longer be reducible by a federal subsidy to consumers as of late years.

The Chairman of the Milk Control Board of Ontario says:

"It will mean that the price to consumers in Toronto will revert to 13c per quart which actually has been the legal price all along."

From this it follows, due to the removal of the consumer subsidy, that there will be an upward change of 2c per quart throughout the province.

Magnetic Picker Preventing Grief

Plenty of Flat Tires Stopped By This Device Which Scoops Up Loose Metal From Highway.

Unknown to the average motorist on Ontario highways is the fact that the Department of Highways, with the object of preventing possible accidents and tire trouble, operates a magnetic nail picker which travels over all paved roads in the province and picks up nails and other pieces of metal liable to cut tires and tubes.

The nail picker, which operates out of the department's head garage at Toronto, has just completed its spring trip over the roads in the Niagara Peninsula. On roads where little or no trucking is done, an average of one pound of metal per mile was picked up. The average on trucking highways was two pounds per mile.

The outfit, which operates at a speed of from eight to ten miles per hour, has two big magnets a few inches above the roadway. Usual way to operate is with one magnet over the highway shoulder and the other above the pavement.

Motors and generator supply the electricity required.

Heaviest "pick-up" in this area

Ripe, Juicy Strawberries

FRUIT BY AIR

(Financial Post)

California oranges and Georgia peaches coming into Canada by air are not preceded by the shipment of Texas strawberries arriving at Toronto's Malton airport recently, fruit wholesalers and aviation authorities declare. And shipment by air to the United Kingdom of Niagara Peninsula and British Columbia fruit is "out of the question at this stage of the game," the air experts add.

Reasons given are: the difference between surface and air transportation costs, which boost prices well above the Canadian price ceilings; lack of population; the fact that Canada has few planes specifically designed as freight carriers... with the result that most air express, with the exception of shipments of supplies flown to otherwise inaccessible communities in Canada's north, are limited to the hold capacity of passenger planes.

But strawberries and raspberries are different, according to W. D. Branson, Toronto fruit wholesaler who imported last week's shipment.

"We hope to have twice-weekly shipments from Texas during the winter months," he states.

The 450 crates of strawberries represented an outlay of \$4,004, of which \$1,600 was the cost of chartering the plane from Texas. The ceiling price of \$0.70 a crate totalled \$4,235, while the retailing at 45 cents per pint box of the 10,500 (24 pints to a crate) represented a turnover of \$4,950.

"Such a flight would not be practical with anything but strawberries," explained Mr. Branson. "Berries start to deteriorate very quickly after they are picked, so speed is essential. Then, also, their compact size as compared with lettuce and other perishables makes them more suited to air transportation. We were fortunate in having our shipping costs very close to surface transport costs, as our plane stopped off at New York on its way back to pick up a shipment of magazines. Then, this is an off season for this type of fruit, and we were able to get a good price for it."

Mr. Branson said the distance

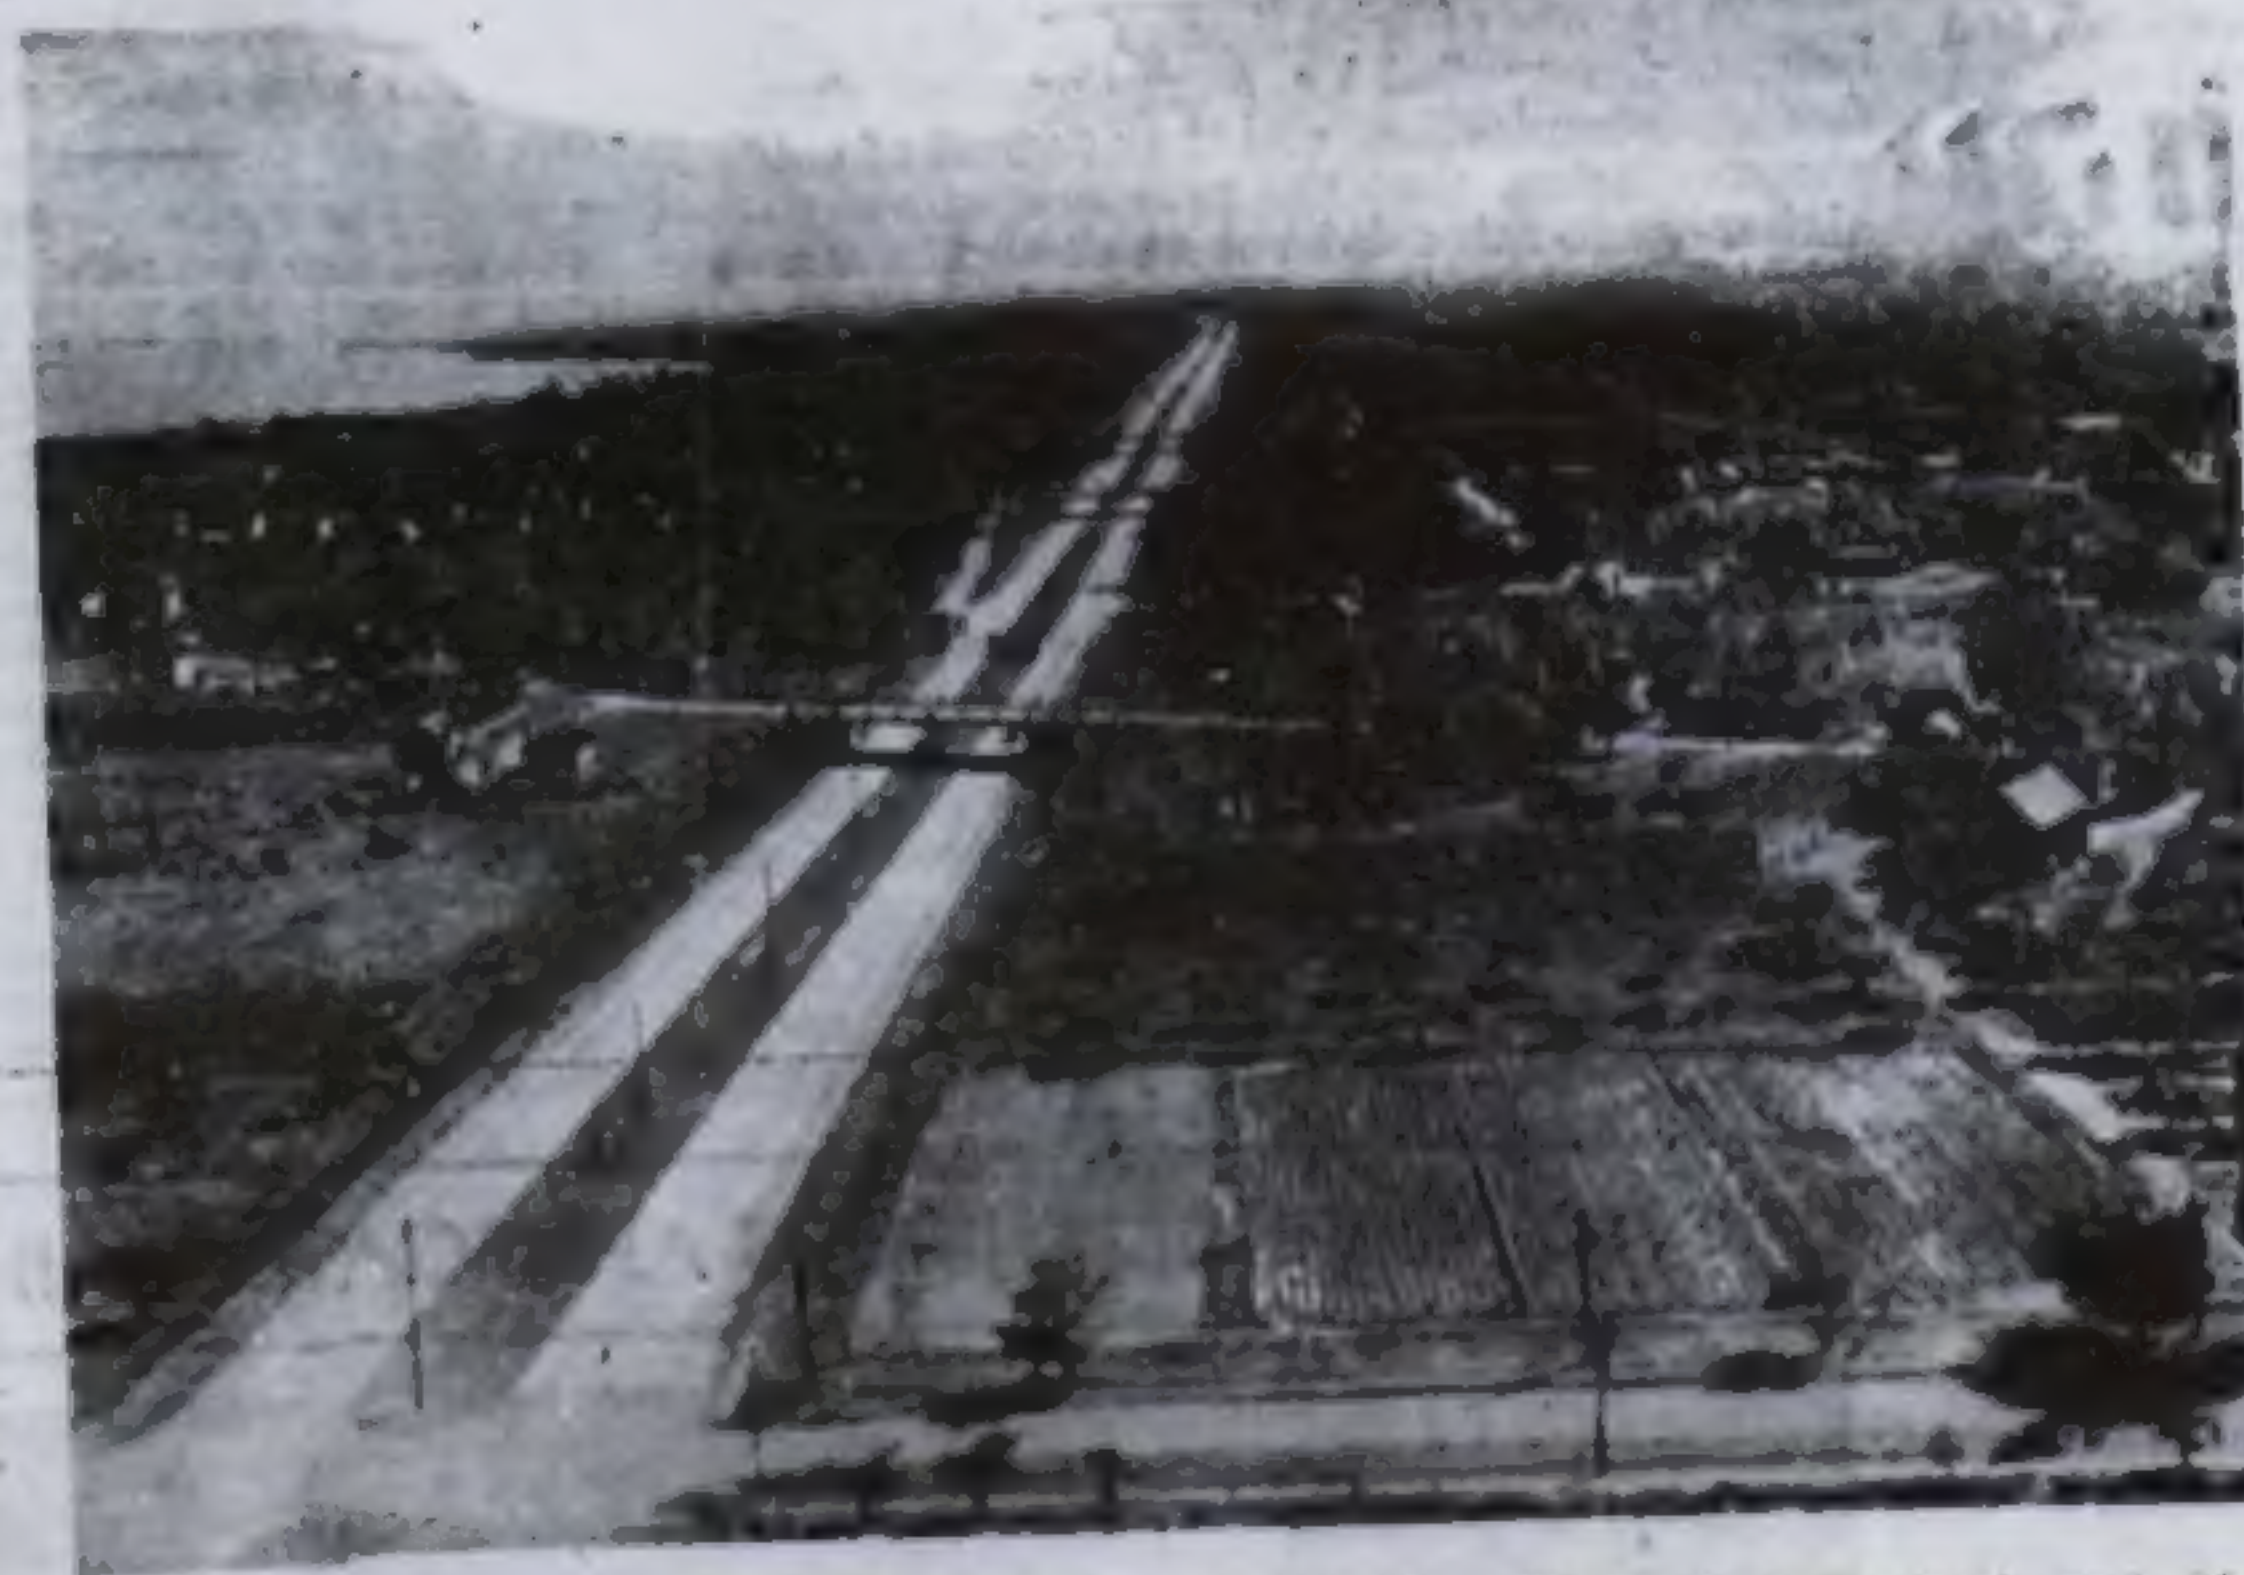

which trucks had to travel to the airport (in Toronto 15 miles) was more than offset by the ease with which unloading was accomplished. "There was no congestion—no line-up of waiting trucks, as there is when railway cars are being unloaded in the average city fruit terminal."

"Any shipments of perishable fruits, other than berries, by air, is just a stunt," Mr. Branson states. "In our shipment, spoilage was at an absolute minimum."

In the United States, it was pointed out, about a dozen air freight lines have been started since the war, many of them by veterans using cargo and troop carrier planes purchased for a fraction of their value. Many of these planes have been specifically designed as cargo haulers, while there are few such planes in Canada.

Air-express costs between Toronto and Winnipeg are \$11 per 25 lb. and 44 cents for each additional pound, as compared with railway express rates of \$6 per 100 lb.

The Queen Elizabeth Way Through Grimsby

Pictured above is a spectacular air view of The Queen Elizabeth Way, showing the Grimsby section of this scenic express route, which it is expected this summer will accommodate a record breaking influx of American tourists. In the foreground is the Paton

street bridge with the Ontario street and Maple avenue bridges in the distance. On the left, note the terrific erosion of the lake. In the far distance is Grimsby Beach.—Cut courtesy St. Catharines Standard.

Watch Where You Go Bathing

Dr. Mather, M.O.H. Issues Warning About Certain Areas At The Lake—Can Use Pier.

In previous years, Dr. Mather, M.O.H. has issued a warning about the dangers of swimming in the area near the mouth of the Forty Mile Creek.

This Creeper plant to the lake from the west adjacent to the water and the water is very polluted. There is a veritable danger to swimmers of typhoid in this area.

There should be the fence east of the area from the next point. The pump house to be advised to swimmers are strongling from avoid this area. Swimmers and the pier at the pump house east from beyond the next point reasonably safe.

Parents are urged to caution their children and to make that they swim in safe areas.

Grimsby Weather

Week ending at 8 a.m., Monday, May 20th.

Highest temperature	73.4
Lowest temperature	35.0

Watched Them

The members of the Grimsby Fire Department, on Saturday night last spent a most enjoyable evening at the home of Chief LePage, when they met to do honour to two of their oldest members who have retired from the company, in the persons of Clarence McNich and Cecil Hildreth. At the conclusion of the evening Chief LePage in a few well chosen words presented the two veterans of the Department with gold wrist watches.

Collect \$1,181.77 For Cancer Fund

Canadian Legion members have just completed one of the best jobs that has been undertaken in Grimsby in a long time. They have finished their collection campaign for the Conquer Cancer Fund and report a net collection of \$1,181.77.

This money was collected in the town only, from 367 contributors, although they did receive several voluntary donations from residents of the township.

of resident George Marr and his 17 boys are to be congratulated for their excellent work that ed up to this campaign.

Now is Victoria Day. All town business in Grimsby will be closed, including the Bank of Montreal and the liquor store.

Council Backs Up Vets Committee

County Legislators Open May Session—Many Communications Received—Grimsby I.O.O.F. Requests Grant.

At the opening of the Lincoln County Council sessions for May Tuesday morning in St. Catharines, Warden Robert M. Johnston of Port Dalhousie spoke of the Lincoln County Citizens' Committee as "one of the greatest assets we have today for veterans' affairs, their activities are needed and will be needed in the future."

The matter came up when the council received a communication from the Citizens' Committee, enclosing a cheque for \$600. Council was informed that the executive was forwarding the cheque to reduce the county's contribution to the committee to the same ratio as that of the City of St. Catharines since the city had reduced its financial support from the \$5,000 requested to \$4,400.

Warden Johnston informed the assembled members of the Lincoln council that some controversy had developed within the past two or three weeks between the city council and the Citizens' Committee and that he was afraid the general public had the idea the same situation existed between the county and the committee. He stated that the

WILL LICENSE SALVAGE YARD

Township Council Passes By-Law—Accept Tender Of \$4,500 For Widening Woolverton Mountain Road—Blast Out Rock And Dirt And Push It Over Side Of Gully.

In compliance with complaints that have been received, North Grimsby council on Saturday afternoon held a special meeting and thoroughly discussed the operation of salvage yards within the township.

At one time these yards were known as junk yards but under the Municipal Act they are now known as salvage yards. At the present time there is, according to information given council, one salvage yard operating in the township. This yard is situated at the corner of the Smithville Grimsby stone road and the Grimsby Centre road.

After due deliberation council passed a bylaw to regulate and license all such places of business, but under the Act no such yard can be licensed or operated unless it has been inspected and passed by the Medical Officer of Health.

County council in session on Tuesday also passed a similar bylaw regarding these yards, thus backing up the action of the local council, and also to cover portions of the county where the municipalities do not pass a local bylaw.

Council received a tender from J. T. Cooke and Son of Alderhot offering to do the work of widening

Lumber Scarcity Getting Worse

Robt. Johnson Of Peninsula Lumber And Supplies Drives All Over Ontario Hunting For Construction Materials.

"Unless there is a radical change some place, or a miracle happens, timber materials of all kinds for new construction and repair work, are going to be in far shorter supply than ever before. In fact they are not going to exist at all."

Thursly, Robert Johnson of the Peninsula Lumber and Supplies, summed up the situation over the weekend after having spent all of last week travelling over 1750 miles in various lumber districts in the province seeking supplies for the local planing mill and lumber yard.

Mr. Johnson is unable to say what the outcome of all this shortage will be, but he states "I do know that the mill yards are as empty as Mother Hubbard's cupboard. There is just no timber of any kind to be had. Where this spring's cut has gone, I do not know, neither do I know what percentage of the cut went to the United States. But I do know, that the yards are cleaned out, and

FACTS & FANCIES

Frank Fairborn, Jr.

CANADA'S GOLDEN AGE

Canada is one of the largest countries in the world, and yet it is one of the smallest nations in the world. With a territory stretching over two thousand miles from the Atlantic to the Pacific, and an average breadth of about 500 miles of lived-on land from the United States border northward, this Dominion has a population of only eleven and a half million people.

Belgium is one of the smallest countries in the world—it could be tucked away in one corner of Ontario, and yet it has a population equal to that of the whole of Canada. Great Britain, with a population of about 45 millions, is much smaller than the Province of Ontario, which is inhabited by less than 4 million people, says Lewis Milligan.

I have made these comparisons in order to show how big and, at the same time, how little this Canada really is. When a Canadian is speaking boastfully of Canada he is usually thinking of its vast territory. When I arrived in this country as an immigrant 35 years ago the first thing that impressed me was its spaciousness, as compared with England, and the great distances one could travel without seeing much sign of human habitation. Political orators and preachers in those days used to rhapsodize on the vastness of this Dominion. Beginning with Cape Breton, they would sweep in imagination across the farm lands and "virgin forests" of the eastern provinces, pause to admire the Prairies, "clothed with golden grain," "the granary of the Empire" and finish up with a peroration on the magnificent sunsets over the Rockies.

At that time there were about 7 million people in Canada, and it must be said to the credit of those oratorical politicians and preachers that they had a vision of those wide spaces being populated by millions of eager and industrious immigrants from the Old World. There were no little Canadians in those days. Sir Wilfred Laurier was a man of vision, and one of the first things he did when he came to power in 1896 was to appoint Clifford Sifton as Minister of the Interior. Sifton at once went to work to organize the great immigration movement in Canada. He established immigration offices all over Great Britain and in Scandinavia, and he started a vigorous campaign which resulted in an increase of 1,800,000 in population during the decade 1900-10 from immigration alone.

This figure was the main factor in the gain of 34.17 per cent., which to total population of Canada registered in those ten years, and which was relatively larger than the growth of any modern country during that period. The next decade started out with an intensification of this immigration movement, but a recession set in with the outbreak of the First World War. The figures for immigration arrivals were actually reduced from 1,166,004 in the ten-year period 1921-31 to an all-time low of 140,361 in the ten years of 1931-41.

Sir Wilfred Laurier declared that the "twentieth century belonged to Canada," and he ushered in a period of expansion and prosperity which is remembered as "Canada's Golden Age". He did not anticipate the two great international conflicts which have intervened. But those conflicts are now behind us and Canada can yet fulfill the prophecy of that great statesman. We need such men of vision, of faith and courageous enterprise today.

The vast empty spaces of this Dominion are yearning for human inhabitants, and even in the settled regions there is ample room for many times the present population. We are for ever reminded that Canada needs foreign markets for her surplus products, and that is very true, but it is true largely because our home market—population—is so small. By means of an immigration movement we can enlarge our home market and save the cost of transportation. More people will mean more consumers for the products of our farms and factories, more business for our stores and commercial institutions, and more freight and passengers for our great and underworked railway systems.

Canada has the room and the resources for the maintenance of a great population, and it is sheer selfishness and short-sightedness to shut our gates against the immigration of energetic people who have no room and opportunity for enterprise in the overcrowded countries of the Old World. The heritage which Canadians now enjoy was created and passed on to them by their immigrant ancestors, chiefly from the British Isles. They were an adventurous and hard-working people and they suffered all kinds of hardships cheerfully. Canada needs to be refreshed by that same pioneer spirit today if we are to become a nation worthy of our great heritage.

DO HIGH WAGE RATES BRING PROSPERITY

"Does the raising of hourly wage rates produce greater annual wages, incomes and rising employment?" That, says Allen W. Rucker of Cambridge, Mass., is the "greatest of all sixty-four dollar questions." In an attempt to answer this question, Mr. Rucker has consulted the records of the United States Bureau of Labor Statistics, and what he found is exceedingly interesting.

In his fact-finding search Mr. Rucker discovered that the average hourly wage rates in manufacturing industry were 52 cents in 1923, shortly after the First World War. From that point wage rates rose to 56.6 cents in 1929, and advanced to 63.3 cents by the year 1939. In other words, between 1923 and 1939, wage rates were lifted by 22 per cent.

Now, according to the theory popular with many labor leaders, annual income of factory workers should in that time have increased by the same proportion—22 per cent, but, instead, there was an actual decrease. Here are the figures: Average annual earnings per worker in 1923 were \$1,239; in 1929 they were \$1,301 (an increase of 5 per cent against a wage rate increase of 9 per cent); but by 1939 average annual earnings had dropped to \$1,153, which was 7 per cent less than they were in 1923.

"In other words," says Mr. Rucker, "after seventeen years of following the attractive theory of higher-wages-for-more-purchasing-power, after raising wage rates by 22 per cent, the average factory worker made \$86 less per year than he did in 1923. Instead of more purchasing power, factory workers had actually less purchasing power."

These are official figures of what really happened, compiled by a government fact-finding organization, and they permit of only one conclusion, that the prosperity-through-higher-wage-rates did not work out in practice. "To be sure," says Mr. Rucker, "some factory employees in the higher seniority brackets, and hence with fewer layoffs, got more income than before. But they got it from other and less fortunate workers, who were paid less; so much less that the average income for all factory labor was \$86 less than in 1923, despite an increase in hourly wage rates of 22 per cent. And, of course, the theory is supposed to benefit all labor, not merely a favored few."

This same theory, which has been the cause of so many labor disputes and strikes, holding up production and postwar industrial

revery, is supposed to be the "open sesame" to greater demand for goods and more employment. In order to discover if it did that, Mr. Rucker consulted the United States Census of Manufacturers. He found that in 1923, when wage rates started upward, Manufacturing Industry employed 8,194,170 persons as wage-earners. Seventeen years later, in 1939, after 22 per cent increase in hourly wage rates, many more people should have been employed if the theory were correct. Instead, the Census reported only 7,886,567 people employed. This is 307,603 fewer workers than in 1923.

"In short," says Mr. Rucker, "unemployment, not increased employment, was the outcome of the seventeen-year test of the theory. But even that, as bad as it is, does not tell the full story of unemployment. The population of the United States is steadily increasing; every year between 750,000 and one million young people come of age and need jobs. In 1939 there were actually ten million more persons in the labor force of the United States than in 1923. . . . Had the normal expansion of manufacturing taken place, nearly 19 per cent of these should have found jobs in industry. So that by 1939, there should have been employed in manufacturing 1,900,000 more people than in 1923. But, instead, we had 307,603 fewer employed."

So much for the "prosperity-through-higher-wage-rates" theory. Mr. Rucker backs his statements with official government charts from both the United States and Canadian government statistics departments.

Letters to the Editor

North Bay, Ontario,
May 19, 1948.

Dear Sir:

You may find my request unusual but after hearing Mr. Andy Clarke's news over the Radio coming from his own town about being a very good fruit country, I decided to ask you a favor. I am a mother of three children which I have to support being a widow and I have a boy 16 years who could work on a fruit farm. Would you kindly let me know if it would be possible for you to find him a good home on a farm for the two months holidays. I would be most thankful.

Please answer if I am not asking too much.
P.S. The boy has experience on a dairy farm but would like to work on a fruit farm.

Yours truly,
Mrs. A. Lambert

FARMER FEEDS THEM ALL

The King may rule o'er land and sea,
The Lord may live right royally,
The Soldier ride in pomp and pride,
The Sailor roam o'er the ocean wide;
But this or that, what's'er befall,
The Farmer, he must feed them all.

The Writer thinks, the Poet sings,
The Doctor heals, the Lawyer pleads,
The Craftsman follows wondrous things,
But this or that, what's'er befall,
The Farmer, he must feed them all.

The Farmer's trade is one of worth,
His pasture with the sky and earth,
His pasture with the sun and rain,
And no man loses for his gain,
And men may rise and men may fall,
But the Farmer, he must feed them all.

SERVICEMEN'S DEPENDENTS APPRECIATE TRAIN MEALS

To carry more than 20,000 dependents of Canadian servicemen to their new homes in all sections of the Dominion, 87 special trains have been operated out of Halifax over Canadian National Railways' lines. The records of the Canadian Red Cross Society show that to date 9,086 wives and 5,904 children of soldiers, 3,956 and 1,440 of airmen and 538 and 131 of sailors have been brought to various points in Canada by rail. In addition, 45 wives of servicemen have been flown across the Atlantic by Trans-Canada Air Lines.

Figures released recently by the Department of National Defence, Ottawa, indicate that there are still at least another 30,000 dependents of Canadian service personnel to be brought to Canada. Based on this report, it is estimated by C.N.R. traffic department officers that another 200 of these "homes on wheels" specials will have to be operated before the last war bride has been welcomed to her new home.

One of the biggest tasks connected with the operation of the trains is the serving of meals. To feed nearly 2,500 women and children going to

Quebec, Ontario, and Western Canada recently on C.N.R. trains, more than 20,000 meals were served. Here are a few of the many items which had to be stored in the dining car pantries—100 gallons of ice cream, enough for 10,000 portions; 500 gallons of milk, 8,000 glasses; three tons of meat, 900 dozens of eggs, four tons of vegetables and 1,250 loaves of bread.

The upper photograph shows typical scene at meal time in the dining cars of the dependents' trains. In the lower, three cute little children, twins on the right, enjoying cookies and milk in Red Cross Welcome Canteen in Victoria Station, Montreal, their arrival from Halifax a C.N.R. special train.

Have you lamped that new curvaceous picket fence in front of the House of Livingston.

And the "Rains came" and every catch basin and drain was in fine shape to take the water.

Current and Betmer's display window never had as fine a dressing as it has had with the magnificent display of prizes for the Legion sports day.

Digressing up Paton street. There is another fued on. "Red" Graham accuses Councillor Archie Chivers of nefarious practices. "The Bishop" claims that the Councillor, purposely brought in a big road roller and rolled his garden to a hard-pas surface, just to chase the birds all over onto the Graham Estate to get their worms. Result, The Graham birds have had to go on short ration. Also, Syd. Clay, the HIG potato grower says he will have new potatoes on the table by the middle of June. "Red" says it "Can't be did."

'WAY BACK WHEN

Frank Fairborn, Jr.

Mr. Orlon Livingston.

Sir:

WHO KNOWS?

During the early village days the walks were of planks, from where the board walk area derived, and it will be recalled by the old timers, that on the village streets the side walks were built on posts, with a guard rail—such was the walks on Main street in front of the Remy theatre, (under which was a creek or spring); Adelaide street; Depot street, west side between John and Adelaide; Main street, south side between the bridge and Paton street; Main street at Robinson; also on Main street east of the bridge. The walks on these streets were from two to four planks wide.

What year was the fire of the original pioneer stables of the Mansion House hotel, when they were situated on Elizabeth street, just opposite the present Mansell home? The Annex Inn was then owned by the Randall family.

Recalling the days when the Independent had a supplement weekly, known as the Fruit Grower, Market-Gardener and Poultryman, what was the strain of fancy poultry that the late Walter Groat raised, as a hobby, on Oak street, were they Bobright or Japanese?

Who can supply the story of the "town bell" which was placed in the belfry on the Groat foundry back in or near the year of '83?

These items will revive the village age.

I remain,

Francis Hill.

THENADAYS AND NOWADAYS

Recalling the styles of long ago, we ha ha ha! and we ho, ho, ho! Take for example the hats they wore along about 1894, piled high with plumes—often eight or ten—I'm glad I wasn't an ostrich then! The men wore derbies, both black and brown, with a cord to keep 'em down. The ladies carried handwarming muffs. Men wore shirts with detachable cuffs and stiff starched collars with height to spare, through which the wearer came up for air! Long underclothes were in fashion then for women and children, as well as men. A certain corset was claimed to be "The Invention of the Century." It squeezed the form to an hour glass shape from which the torso could not escape. The sweeping skirts that obscured the feet, brushed streets and sidewalks and kept them neat! High button shoes were a joy and pride; one style had elastic on each side. Instead of the modern living room, there was a "parlor" quiet as a tomb except when the organ, pumped with vim groaned (off key) some old familiar hymn. A huge sea shell just inside the door when held to the ear gave forth a roar. Wax flowers "neath glass, stood in gorgeous hues near stereoscopes with stacks of views. On horsehair sofas we sat serene and read by a lamp of kerosene. Square dances reigned at the Opera Hall and the song hit was "After the Ball". Such fads and follies were all the rage in the good old horse-and-buggy age!

Now let's consider the modern days, the modern folks and their modern ways. The so-called hats are so very small you wonder if they are there at all, in fact, oftentimes they're so frail and square they're just an ornament in the hair! But it's quite as hard to understand the feathers stuck in a man's hatband, while necktie patterns (and you may quote) would surely frighten an Igorot! Some changes are blamed upon the war but some are still unaccounted for. Is it permissible to inquire why women dress in a man's attire, when, as a rule they feel such alarm at any loss of feminine charm? And what's the idea of all the swoons when a certain throaty crooner croons? Into the fashion picture comes "The Irreducible Minimum." Out are the dresses with sweeping trains, in are the skirts on the higher planes. Her shoes—sans uppers, sans toes, sans caps—just heels, thin soles and some frill tie straps! Or those built on a pontoon style—cluppety, cluppety, all the while! And when her stockings she doth eschew her toes are painted a garish hue. Her brows she plucks in a curve that she considers dynamic symmetry. Dancing is out—now it's "cut a rug" with boogie wogie and jitterbug. . . . Pardon me, folks, I've got to close and stand in line for some nylon hose! If yesterday's fashions make us smile—today's simply roll us in the aisle.

Thursday, May 23rd, 1948.

Don't count your chickens until they are big enough to scratch.

There will never be a sisterhood of womankind as long as one woman has a dozen pair of nylons more than the other one.

Swiped Championship Out Of Rahn's Hip Pocket

This is the team that upset L. equilibrium of the GAS HOUSE and the Men's Bowling league by cakewalking away with the 1943-44 championship and the Gledhill and Ingelhart trophy. They are the GENERALS. From left to right, seated—Hamilton

Fox, Captain; Allan McPherson; Charles Schwab; Harold Walters; Standing, Robert Robertson and Ralph Shurt. Note the six replicas of the real trophy sitting down in front along with the five pins and bowls.—Photo by Alex Whyte, of Thomas Studios.

SPORTOLOGY

(By Bones Livingston, Sportologist)

IT'S ALL OVER FOR THIS YEAR—final game in the NIAGARA PACKERS Consolation series, in the PEACH QUEENS league, was played on Thursday night and the pin toppling for the gals is all over, from a scheduled competitive standpoint, until next October. The next big event will be the annual banquet in the Oak Room of the Village Inn on Wednesday night of next week. The JOHN HALE team won the consolation series from the VETERANS 2-1, this despite the fact that they only had two games over 200, while the VETS had four games over 200. . . . It has been a great season for the QUEENS and the ladies have had a lot of fun and thrills out of it. . . . KAY PYNDYK is the winner of the RUSHTON RESTAURANT trophy for the high single game with a score of 346, while DOBIE McBRIDE was the winner of the trophy donated by SAMMY LEONE for the high triple with a score of 795. THE INDEPENDENT trophy for the high average for the season went to MARY MORTON with 210. . . . All these prizes along with the METAL CRAFT trophy will be presented at the banquet. . . . It was a husband and wife combination that won the War Savings Stamps at THE BOWLAWAY last week, they being JOSEPHINE KANSKI with 279 and PAUL KANSKI with 339. . . . LITTLE WHIZZER says it has been a tough season and he is sighing for the solitude of the bushland. It won't be long now. . . . You can call it coincidence or what you like, but most of the girls on the ST. JOHN team that won the METAL CRAFT trophy and some of the girls on the JOHN HALE team that won the PACKERS prize are employees of the HEWSON and SON factory. Bowlers and baskets seem to go in bunches.

Johnny Mitchell Wants The Arena

Johnny Mitchell, well known throughout the Fruit Belt in the days when he played hockey for the Hamilton Tigers and later as the "pint size" O.H.A. referee was a visitor in town on Tuesday.

Johnny for the past several years has been a manager and coach of various teams in the American league and is now the Big Bee in charge of the Pittsburgh Hornets.

The purpose of his visit to town was to try and make arrangements for the use of the Arena for pre-season practice for the Pittsburghers. Johnny would certainly have liked to have brought his charges to Grimsby, but as they begin practices early in September it would be an impossibility for the Arena to be used as at that time Niagara Packers would be right in the middle of heavy packing and shipping of Peaches. The American league playing schedule will start this year on October 15th.

It seems one half of the world nowadays must feed the other half.

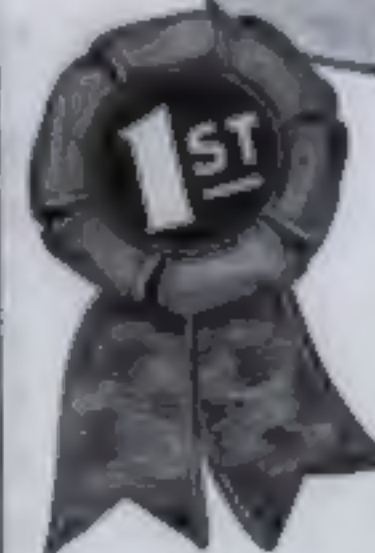

Maybe it's good advice for a man not to associate with fools, but how can a man live to himself?

The Farm Calls

Farms offer Canadians a chance... and a challenge!

They offer a chance for IMMEDIATE JOBS—STEADY JOBS too.

They also offer jobs for experienced farm workers—for mechanically trained workers—and any others able to help seasonally.

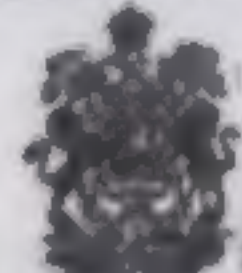

Then, there is the challenge to fight off starvation threatening many nations.

"THE SPECIELED TROUT"

Based upon a picture painted for Carling's by Sholly Logie

This is one of a series of illustrations on the subject of the Conservation of Canada's natural assets designed to emphasize the fact that the beauties of unspoiled nature that we enjoy today are a precious heritage which we must protect for tomorrow.

"A Beauty"

A swirl beneath the surface, a ripple where a moment before quiet water had mirrored the leaves above. . . . And then—an explosion of iridescent beauty as the speckled trout leaps high in search of food.

Since the days of Isaac Walton the joys of angling have captured the hearts of many men, and we in Canada have been endowed with a stock of fighting fish unparalleled in the world. But by our very enthusiasm we have endangered the sport we love. Many waters which formerly teemed with fish are now barren. Many species have vanished entirely from their old haunts.

Our governments, both Provincial and Federal, have instituted restocking programmes, built fish hatcheries, and passed laws for the protection of game fish, but without wholehearted and active public support, mainly in the observance of daily catch limits, these measures will fail.

Conservation is not just a doctrine to be preached to hunters and fishermen. It is a vital part in the continuance of our national economy, and must, of necessity, fall if its measures do not receive the full support of all Canadian citizens.

FAMILY OF RAILROADERS: A record, believed unique in the history of Canadian railroads, is that of Ernest Legere, of Montreal, and his seven sons, all employees of the operating department on the Laurentian division and all on the Montreal-Mont Laurier run of the Canadian Pacific Railway. The father, who joined the C.P.R. in 1907 is a locomotive engineer and is himself one of eight brothers, all of whom have worked or are working for the company. He and one of his brothers still are railroading, two are dead, three

have been retired on pension and one has left the railroad to establish his own business. Five of these brothers and four of Ernest Legere's sisters have children in C.P.R. employ and altogether there are more than 40 members of the Legere family on the company payroll in and around Montreal. Pictured here are Mr. Legere and his sons, left to right: Front Row—Gerard, fireman; Roman, engineer; the father; Fernand, youngest of the family, fireman; Back Row—Edouard, brakeman; Roland, brakeman; Marcel, engineer, and Roger, engineer.

CANADIAN FRUIT PRODUCTION

The following statistical article from the pamphlet "Agricultural and Industrial Progress in Canada," as published by the Canadian Pacific Railway Co., will be of interest to fruit growers in this district.

According to figures recently released, the value of the Canadian fruit crop last year is estimated tentatively at \$31,544,000 a decline of \$9,138,000 from the value of production in the previous year. By provinces the value of the 1945 crops with the previous year's figures in brackets were as follows: British Columbia \$19,311,000 (\$21,284,000); Ontario \$9,390,000 (\$12,005,000); Nova Scotia \$1,998,000 (\$5,063,000); Quebec \$653,000 (\$1,534,000); New Brunswick \$531,000 (\$438,000).

For Canada as a whole the production of apples was, with 1944 figures in brackets, 7,393,000 bushels valued at \$12,202,000 (17,839,000 bushels, \$22,807,000); pears, 852,000 bushels valued at \$1,092,000 (\$94,000 bushels, \$2,007,000); plums and prunes, 447,000 bushels, \$1,389,000 (\$55,000 bushels, \$1,375,000); peaches, 1,477,000 bushels, \$4,351,000 (1,096,000 bushels, \$4,534,000); apricots, 101,000 bushels, \$262,000 (146,000 bushels, \$489,000); cherries, 195,000 bushels, \$1,943,000 (285,000 bushels, \$1,909,000); strawberries, 18,705,000 quarts, \$4,083,000 (10,922,000 quarts, \$2,308,000); raspberries, 22,433,000 quarts, \$3,236,000 (16,806,000 quarts, \$2,682,000); grapes, 66,344,000 pounds, \$2,559,000 (60,962,000 pounds, \$2,380,000); loganberries, 1,652,000 pounds, \$238,000 (1,600,000 pounds, \$196,000).

By Provinces, the value of production was as follows last year with 1944 figures in brackets: Nova Scotia: apples, 1,096,000 bushels valued at \$1,096,000 (5,362,000 bushels valued at \$4,572,000); pears, 39,000 bushels, \$57,000 (30,000 bushels, \$45,000); plums and prunes, 6,000 bushels, at \$20,000 (11,000 bushels, \$26,000); strawberries, 790,000 quarts, \$174,000 (\$27,000 quarts, \$105,000); raspberries, 70,000 quarts, \$20,000 (82,000 quarts, \$15,000). New Brunswick: apples, 170,000 bushels valued at \$270,000 (287,000 bushels valued at \$348,000); strawberries, 900,000 quarts, \$247,000 (412,000 quarts, \$74,000); raspberries, 22,000 quarts, \$14,000 (30,000 quarts, \$14,000). Quebec: apples, 80,000 bushels valued at \$1,197,000 (609,000 bushels valued at \$1,197,000); strawberries, 3,500,000 quarts, \$605,000 (2,044,000 quarts, \$426,000); raspberries, 790,000 quarts, \$116,000 (995,000 quarts, \$208,000). Ontario: apples, 550,000 bushels valued at \$1,104,000 (2,620,000 bushels valued at \$2,690,000); pears, 47,000 bushels, \$109,000 (872,000 bushels, \$873,000); plums and prunes, 27,000 bushels, \$77,000 (144,000 bushels, \$360,000); peaches, 833,000 bushels, \$2,418,000 (1,174,000 bushels, \$2,924,000); cherries, 41,000 bushels, \$309,000 (140,000 bushels, \$824,000); strawberries, 6,146,000 quarts, \$1,454,000 (4,678,000 quarts, \$993,000); raspberries, 4,437,000 quarts, \$1,524,000 (4,522,000 quarts, \$1,411,000); grapes, 63,962,000 pounds, \$2,394,000 (57,340,000 pounds, \$2,230,000). British Columbia: apples, 5,495,000 bushels valued at \$9,610,000 (8,750,000 bushels valued at \$13,730,000); pears, 867,000 bushels, \$1,

Romance Of The Caribbean

Romance, revenge and treachery blend in RKO Radio's Technicolor spectacle, "The Spanish Main," with Paul Henreid, May-reen O'Hara and Walter Slezak co-starred.

Henreid has the role of a Dutch merchant captain whose vessel is seized and the crew sold into slavery by the arrogant Governor of New Spain. In revenge the captain becomes a buccaner and preys on Spanish shipping in the Caribbean. Learning that the daughter of the Viceroy of Mexico is on her way to Cartagena to marry the Governor the buccaner captures her galley, and weds the lady himself.

This glorious technicolor picture will be shown at the Romy theatre on May 27-28-29.

War Of Nerves

An acquaintance of ours knows a man who was recently made a grandfather on three counts in a shattering short space of time. He is a serene man by nature. On the first occasion he took the news unflinched. On the second he kept his seat. On the third he knocked over the breakfast coffee pot. Asked for an explanation, he remarked: "The first might have been fancy. The second could have been rumour. The third is a confirmed fact. Today I am an old man."

Arrive At New Home

The first contingent of Russian war brides to reach America landed in San Francisco the other day. There were 15 wives and their children. All were married to United States Marines. They had all been living in Jap held Shanghai for five near-starvation years and their joy on reaching the shores of America was unbounded. The happy couple was temporarily married by the tardy arrival of four of the husbands who seemed to have trouble boarding the boat.

Nice Companions

Miss Mary Collier, a wealthy Australian spinster, is the proud owner of 20 snakes which she collects as pets. These lovable playmates include venomous and non-venomous types which wriggle and slither about her house at will. Miss Collier did own 30 of these amusing fellows, but the 30th, a diamond snake, bit her playfully several times, so she decided to give it away. Miss Collier also has two pickled death adders in bottles on her living-room mantelpiece. These were among her early favourites that died. She intends leaving them eventually to a museum.

One Theory

We were talking to a woman today who claims you can blame all your moods on the moon. It's waxing now and you can afford to feel piqued and snappish. She does. We watched and she was. She told us rather peevishly that she was going to feel like that until the moon blacks out. Then she gets thunderous. With the new moon, she'll begin to feel better about the whole thing, contented, sympathetic toward others, well-meaning, conscientious, willing, cheerful, industrious. Ah, but with the full moon. That's the time. Excited. Jocund. Given to larking and little quips. Oddly. Charming. A girl again. We should see her then she said. We thanked her, cheerily, but couldn't wait.

Hello Homemakers! When I saw the twisting muddle of dirty cars in a traffic tie-up on the main

street recently, I thought of the tangle of clothes in our laundry last week. Besides dirty play suits, stubborn-streaked collars and grimy work clothes, we had decided to wash all the woollen blankets as well as the bed linen. After the line-up of clothes were all moving in the breeze, three blankets crashed to the ground as part of the line broke! May we remind other homemakers of the policeman's directions to send a few heavy things at a time along the line, otherwise re-route them to another space.

Let's keep things in order from the beginning and sort the clothes. The main idea being to deal with the cleanest things first, slightly soiled articles next, after that aprons, dresses, play suits, then men's work clothes. Unreliable dyed materials should be done separately—soak for 3 to 5 mins. in strong salty water, then wash in a high suds (two basins, if dirty) and rinse quickly. Dry thoroughly. Place the garment in an old towel, press out excess moisture. Hang in a breeze to dry quickly or pad with a towel to dry indoors.

Stains also complicate laundering. Many are no trouble to remove when fresh, but become permanent if the article is left until laundry day or put immediately into hot soapy water. Make a practice of removing stains as soon as possible.

Be sure to shake dusty garments outdoors to get rid of loose dirt. Empty and whisk out pockets and cuffs.

Hard water is another complication because it is harsh, hard to use, hard on everything and must be specially treated before it can begin to clean clothes. Treat the water with washing soda, borax or ammonia. Dissolve the softener first; make up a strong solution and keep it in a well-corked bottle out of reach of children—use ¼ bottle of crystals and fill up with water. Measure from the bottle exactly—too much will harm fabrics, too little will fail to do a good job. Moderately soft water requires 3 or 4 theps. Hard water needs 5 to 7 theps. in 10 gallons of water.

Now, add the soap and swirl the water to create about a 3 inch suds. From time to time during the washing you will need to add more soap because suds die down. Unless a good lather is maintained, there is danger of scummy curds forming on clothes. Fresh water is important for a good cleaning of soiled goods.

Soften rinse water to prevent particles of soap remaining in goods which will turn yellow when ironed. Use the same proportion of chemical as for the machine. Much depends on the wringing. When properly done the rollers press out most of the soapy wash-water, but if the clothes are carelessly fed in or if pressure of wringer is loose, the rinse water soon becomes soapy. All these points have a dir-

MORE LONG DISTANCE CALLS THAN IN WARTIME!

JUST two years ago we were serving 975,000 telephones. There are now 120,000 more telephones and as a result Long Distance calling has steadily increased even though the war is over. Actually the volume of calling is now about 100% higher than when the war began. That's why it is so helpful when

you observe the proper sequence, as shown below, in making Long Distance calls.

We are building new lines and new switchboards but it will take some time to get them into use. In the meantime we'll appreciate your help and understanding, especially if your call is delayed.

WHEN YOU PLACE a Long Distance Call...

- FIRST, give the operator the name of the distant city...
- THEN, the telephone number of your party...
- THEN, when the operator asks it, your own telephone number.

If you don't know the distant telephone number, please make a note of it for future use when you hear the operator repeat it.

H. T. Stewart,
Manager

"The next place I live in is going to have..."

Many an over-expanded household has endured the "bathroom problem", but lack of ADEQUATE ELECTRIC WIRING is a more subtle irritation. Having to move the chest of drawers to plug in the vacuum cleaner, for instance, just because the only wall outlet is back there ... with all the lamps and the radio hooked up to it. And then there is the new range or water heater you would like to have if the main wiring would only stand the strain. That is where the real rub comes ... when you can't use some new electrical convenience until new wiring is installed for it.

Many homes are not wired for modern demands. As more appliances become available, the use of electricity keeps right on climbing, and makeshift wiring adjustments lead to trouble.

That is why it is so necessary for you to insist on adequate wiring for your home, be it old or new. Hydro rates have been reduced until they are now among the lowest in the world. Enjoy full benefits of low-cost electrical servants by having your home adequately wired. A good electrical contractor knows how to wire adequately, and your local Hydro will gladly give you information.

If you are improving or building a home, ask your Hydro for the booklet, "Adequate Wiring for the Future Electric Homes of Canada."

Clean up — Paint up — Plant up — Beautify your community

THE HYDRO-ELECTRIC POWER COMMISSION OF ONTARIO

ect influence upon the whiteness of the wash.

TAKE A TIP

1. Fruit stains on white or fast-colour material usually disappear completely if the material is stretched over a bowl and boiling water poured from a height of 2 or 3 feet.
2. Small oil spots as a rule respond to cornstarch or talcum powder patted on immediately. The powder absorbs the oil before it seeps into the threads. If this is not successful, carbon tetrachloride will do the trick. (It is safe to use and quite effective.)
3. Try rubbing ordinary lard thoroughly into the spots made by black grease or tar. This softens the grease, then it may be removed with carbon tetrachloride or a good cleaning solvent. If the cloth is washable the remaining part of the stain may be bleached out with javelle water; if garment can't be laundered use 2 or 3 applications of solvent.
4. Strong ammonia water is a good solution in which to soak a rust-stained garment.

THE QUESTION BOX

Miss T. M. asks: What are the ingredients of the woollen wash we were given in the laundry class of household science course?

Answer: Make a solution of 1 large bar of 9 oz. of mild soap in 3 qts. water. When partially cool add 2 theps. borax and ¼ cup alcohol. Soak garments in solution for a few mins. before being laundered in sudsy water.

Mrs. R. M. asks: Can I clean feathered flowers?

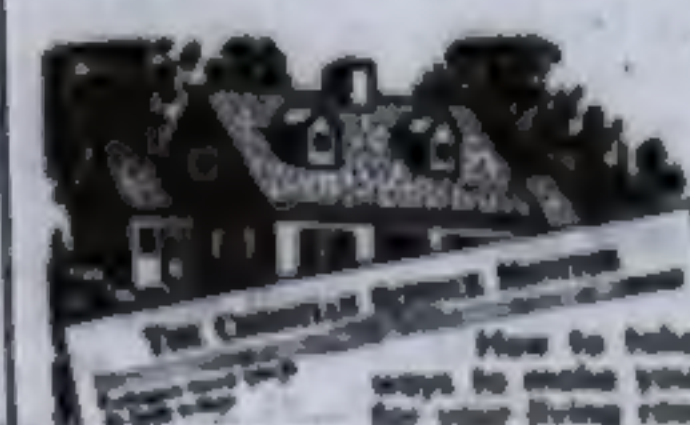

Answer: Shake up and down in cleaning solvent and put in the air to dry.

Mr. T. J. asks: Can I clean a trench coat without destroying the rainproofing quality?

Answer: Yes, brush with soapy water. Dip brush in suds and scrub coat. Pour clear water over it to rinse. Allow it to drip dry. (The bathtub is an ideal place to do the job.)

Anne Allan invites you to write to her c/o The Grimsby Independent. Send in your suggestions on homemaking problems and watch this column for replies.

Job had patience but of course he never tried to get ice cubes out of the tray which had been frozen in the refrigerator.

Navy League Tag Day will be held on Saturday, June 1st.

Clarence Farrow of Detroit was a weekend visitor with his brothers.

Peach Queen's banquet at the Inn on Wednesday night next starts at 6.30 sharp.

Mrs. Gertrude Russell of Seattle, Wash., is visiting with her aunt, Mrs. Mary Whitaker, Elizabeth street.

We regret to report that Mrs. Clarence W. Lewis is confined to hospital where she underwent an operation on Monday.

The Rev. Neil M. Leckie, spent a few days in Kingston last week, attending the Convocation and Board meetings at Queen's University.

Mrs. Neil M. Leckie and her friend, Mrs. Holton of St. Mary's have returned from a visit of a fortnight spent with Mrs. Willcox in her home in Ithaca, N.Y.

The Rev'd and Mrs. Arch. Ward, Toronto, will be weekend guests of the Misses Cline, Grimsby Beach. Mr. Ward, who represents the Canadian Institute for the Blind, will preach at both the morning and evening services in the Baptist Church, May 26th.

Miss Marianne M. House, daughter of William and Mrs. House, Main street, who has been in training at the St. Catharines General Hospital for the past three years, will graduate this month. The graduation exercises will be held in the Collegiate Auditorium on the evening of May 31st, with a reception at the Leonard Nurses Home afterward.

Dr. H. G. Brownlee will attend the Convention of the Ontario Dental Association in Toronto, May 27th, 28th and 29th.

Mrs. A. Ryans spent the weekend in Hamilton, at the home of her daughter Mrs. G. Orr. While there she attended the Musical Festival in Centenary Church, in which her granddaughter Gloria took part.

Among those honoured by Queen's University at the Convocation in that seat of learning last week was the Rev. F. S. Milliken of St. John's United Church in Ottawa. Mr. Milliken, who was given the degree of Doctor of Divinity, was the minister of St. John's Presbyterian Church in Grimsby more than twenty years ago, and is still happily remembered by old friends. The other person receiving honorary degrees on this occasion were Dr. Seeley, the new Provost of Trinity College, the Rev. John MacNab, of Montreal; Mr. George Drow, Prime Minister of Ontario, and Mr. R. S. McLaughlin of Ottawa, the last named gentleman has recently made a substantial gift to the coffers of the University.

Chas. A. Farrell is on a business trip to points in Eastern Ontario and the Upper Ottawa Valley.

R. W. Shantz, who was operated upon in Toronto General Hospital last week is slowly making progress.

A dance under the auspices of the Winona Young Men's Club, will be held in Winona Hall on Wednesday night of next week.

Ann Terry a pupil of Miss Isabel Stephenson, won the Gold Medal for the piano solo for fourteen years and under at the Lincoln County Music Festival.

Mr. Pat Boehm, of W. R. Boehm and Son Insurance has returned from Chicago where he had been taking an extensive course covering insurance principals and practices.

Members of St. Andrew's Women's Auxiliary yesterday attended St. John's Church, Winona, to hear Archdeacon H. A. Alderwood, Supervisor of Indian and Eskimo Residential Schools in Canada. They were afterwards entertained at the Annual Biscuits Tea, held at the Rectory, as guests of St. John's Women's Auxiliary.

Births

RYERSON—To Mr. and Mrs. Gilbert Adams Ryerson (formerly Dorothy Eichmeyer) on May 20, 1946, at West Lincoln Memorial Hospital, Grimsby Beach, a son (Robert Andrew).

Card of Thanks

We wish to take this opportunity to thank the members of the Grimsby Fire Department for the presentation of Gold Wrist Watches and wish the Department every success in the future.

Clarence McNinch
Cecil Hildreth

Women's Institute

Arrangements have been completed by Miss Anna P. Lewis, Superintendent of the Women's Institute Branch of the Ontario Department of Agriculture, for the annual district meetings of the Ontario Federated Women's Institutes, to be held in 20 districts throughout the Province. These meetings will extend over the period from May 29 to June 21, and each meeting will be attended by a representative of the Women's Institute Branch. The staff members who will be in attendance at the various meetings will include Miss Anna P. Lewis, Superintendent; Miss E. Kidd, Mrs. C. Hayes, Miss E. Hopkins, Miss E. Collins, Miss E. Slicker, Miss H. Abell, and Miss Verna Bambridge.

Grimsby branch and other Lincoln County branches will meet in Knox Church, St. Catharines, on Wednesday, June 12th, at 10 a.m.

Protect Child Life!

Caution your child about the changing traffic situation. There are more cars, travelling faster than during wartime. Many children were too young to remember traffic as it was before the war, or they have forgotten how to protect themselves. Knowledge now may avert tragedy later.

Well feeling traffic is a cardinal rule for highway safety. Teach children to walk safely, traffic, preferably on the shoulder of the road allowing enough room for oncoming cars to pass at a safe distance. For night walking, wear something white or carry a flashlight.

Teach children to cross at intersections in city traffic. Be sure your child understands to walk with the green light. Caution children against crossing in middle of block or darting out from between parked cars. Be sure they know to look for turning traffic before crossing!

"Playing in the street" is a leading cause of child traffic fatalities. Teach children to play in well-protected play areas. Even "blind" streets are dangerous because children may not be alert to cars which come into these streets. Children should learn very young to stay out of streets.

NATIONAL SAFETY COUNCIL

In Memoriam

BOLTON—In fond memory of my dear husband, George Edward Bolton, who passed peacefully to his Eternal Rest, May 29th, 1942.

In loving memory of our dear mother, MARY JANE GARR.
In our homes she is fondly remembered,
Sweet memories cling to her name,
Those who loved her in life sincerely,
Still love her in death just the same.
Ever remembered by her family.

Nuptials

SHARP—McGINNIS
Canon H. F. D. Woodcock officiated at the marriage on Saturday in Bishop Strachan School chapel of Alma Elisabeth (Betty) McGinnis, daughter of Mr. and Mrs. Leonard McGinnis, to Stanley Judson Sharp, Grimsby, son of F. S. Sharp of Chilliwack, B.C. and the late Mrs. Sharp.

The bride wore eggshell slipper satin with full gathered skirt and circular train. An heirloom veil of Belgian lace formed a halo head-dress extending to end of train, and she carried white roses. Thelma Gilfoyle, Catherine Mac and Nancy Aikenhead were bridesmaids, gowned alike in civil blue crepe with boat neckline, and matching bonnets with draped veils. They carried white sweet peas. R. M. Willmott was groomsmen.

At the Granite Club, the bride's mother received in dove-gray crepe with sequined epaulettes, fuchsia flowered hat and corsage of sweet peas. For the wedding trip to Vancouver the bride went away in a honey-beige gabardine suit, with blue sheer blouse and flowered hat. The couple will live in Grimsby.

Advance Appeal Comparisons

The amount to be raised for the Anglican Advance Appeal seems meagre when compared to wartime spending, thinks Rt. Rev. Robert Jefferson, Bishop of Ottawa.

In emphasizing this statement he has offered the following figures:

The Church—Pensions for Aged Missionaries, \$1,300,000; the war, 1 frigate;
Missionary Needs, \$1,400,000; the war, 1 frigate;
Educational, \$100,000; 25 anti-tank guns;
Social Service, \$35,000; 1 torpedo;
Churches in Europe, \$80,000; 2 twin 4-inch naval guns;
Churches in Britain, \$100,000; two fighter aircraft;
General Synod Needs, \$305,000; two Bofors A.A. guns;
Diocesan Needs, \$800,000; one corvette.

Yet these supplies of war which would seem insignificant a year ago, represent the amount of money needed to insure that the Church of England in Canada may play its part in world reconstruction.

W.C.T.U.

The Grimsby W.C.T.U. met, May 15, at the home of Mrs. John Miller. The devotional exercises were taken by Mrs. Spencer Merritt and Mrs. S. Hunt.

The annual report showed an increase in membership and in giving of time and money to help arouse "Thinking that will stop drinking."

In the study of "what prohibition has done for Canada" it was established that every removal of restrictions of sale of alcoholic beverages shows an alarming increase of crime, immorality, accidents and poverty. There are fundamental laws which if obeyed give long and abundant life. If disobeyed life is destroyed. The length of a cat's life is only a few years. Other animals have their life term. On the same scientific basis man's life is one hundred and twenty five years. From the barbarian to the finest type of man there are a series of prohibitions or "cutting out" of life many destructive tendencies and an incorporating into life the habits that build a Christian civilization. The prohibition of alcoholic beverages "cuts out" an element destructive to progress. Learn to Live.

The world Bulletin "Around the World With Alcohol" informs us that in every country in the world many people recognize the danger in alcohol as a beverage. In France children are taught to use the fresh grape for health instead of the fermented product.

The election of officers resulted in:

President, Mrs. S. Murphy.
1st Vice President, Mrs. S. Hunt.
2nd Vice Pres., Mrs. H. Roseburgh.

Rec. Sec'y, Mrs. John Miller.
Treasurer, Mrs. F. D. Aikens.
Assistant Treas., Mrs. E. Burgess.

Superintendents:
Evangelistic, Mrs. Hugh Macdougall.
Flower Mission, Mrs. J. Aitchison.

Temperance in S.H., Mrs. Harry Roseburgh.
Citizenship, Mrs. F. D. Aikens.
Non Alcoholic Fruit Products, F. D. Aikens.

Red Cross, Mrs. T. L. Dymond.
Press, Mrs. John Miller and F.D. Aikens.

The Lincoln County Annual Convention is to be held on Thursday, May 30th, in Trinity Hall, Grimsby. The morning session, box luncheon, afternoon session and "White Ribbon Tea" at 6 p.m. will be in the Hall. All active members and husbands honorary members and friends are invited to the tea to meet the county delegates and the distinguished guests. The Trinity Service Club are to cater at sixty cents a plate. The evening meeting will be held in the Baptist Church. Committees were named to prepare for the convention.

The meeting was closed by singing "Praise God from whom all blessings flow" and The Misses benediction. Refreshments were served and a social half hour closed a very happy and satisfactory meeting.

Girl Guides

On Sunday morning, the 26th I.O.D.E. Browne Pack and the 56th and 57th I.O.D.E. Girl Guide Companies held their annual church parade. The parade was from the Municipal Park to the Presbyterian Church. Members of the colour parties were Jean Raymond, Shirley Croft, Pat Harrison, Ann Terry and Leslie Harrison of the 56th Company and Diane Kemp, Carol Baxter, Albina Klovak, Ann Marie Murdoch, Margaret MacMillan of the 57th Company.

Those present included Miss Walsh, Divisional Commissioner West Lincoln, Miss N. Creet, District Commissioner, Mrs. C. M. Bonham, Lieut. 6th I.O.D.E. Company, Beamsville. Members of the Girl Guide Committee of the Lincoln Loyalist Chapter I.O.D.E. Mrs. K. C. Baxter, Convener, Mrs. S. C. Burgess, Mrs. R. N. Wolfenden, and Mrs. E. A. Buckenham, Regent, and several members of the I.O.D.E.

Cubbing

Friday evening found the Cubs engaged in a lively game of ball. Four teams were chosen with Dave

Alton, Art Henley, Ron Wicharuk and Doug Kelterborn as Captains. The first two teams mentioned were declared the winners. Art Henley proving to be the individual champion with three home runs to his credit.

Two Tenderpads, Murray Shaw and Jon Hand were welcomed to the Pack. This week's meeting will be cancelled as it falls on Victoria Day.

Obituary
MRS. HUGH KELSON
The death occurred in St. Peter's Home, Hamilton, at noon on Wednesday, of Mrs. Hugh Kelson, for many years a resident of Grimsby.

Deceased lady suffered a seizure on Friday last from which she never rallied.
While funeral arrangements have not as yet been completed, it is expected that the funeral will be held on Saturday afternoon, with interment in St. Andrew's graveyard.

Girl Guides

DIVISION OF WEST LINCOLN
For some years camping facilities for the Division have been sought in vain. Now, thanks to the indefatigable efforts of Mrs. C. M. Donohue a site has been secured and different units of the Division will go into camp on Thursday, 23rd May, for the week-end.

The Camp is a large cottage at Grimsby Beach, with fields, woods and beach to offer a choice of camp activities. Nearby is a smaller cottage generously lent for the occasion.

The Camp Commandant will be Mrs. M. Hewitt, Blue Cord Diplomat Guide, assisted by Miss Margaret MacNeil. The enrolment is twenty-two Guides.

On the Sunday the Guides of the Division will have a one-day camp of their own to increase their nature-love and to enjoy the comradeship which leading their separate units does not often permit them to have. The District Commissioner will be in residence throughout.

The Hamilton Division has hospitably invited our Guides to share the fortnight long training at Camp Kiawa and it is hoped that some Guides and a Quider will have the benefit of this in July.

Pirates Lead A Hectic Life

Paul Henneid lived the most strenuous phase of his life during this three months of work as the Dutch pirate, Captain Laurent Van Horn, in "The Spanish Main."

Among Henneid's various chores he had to ...

Engage in eight bitterly contested fights with fists and rapier.

Be clubbed on the head by a sword hit in the hand of Antonio Moreno.

Be spread-eagled for a week's shooting on a prison stone floor.

Be slashed on the wrist by Walter Slezak.

Be trussed to a foremast and flogged with a cat-o-nine-tails.

Be shot in the back by Barton MacLennan.

Leap into the sea from the rail of a Spanish galleon.

Maureen O'Hara and Walter Slezak star with Henneid in "The Spanish Main," produced in Technicolor, with a huge supporting cast that includes Blanche Baines.

This thrilling romance of the Caribbean will be shown at the Romy the first three days of next week.

A speech expert is the person who can understand the lingo of the teen age group.

Utopia must be the place where one doesn't have any trouble in securing a handy man to do odd jobs.

Another good way to stay busy is going around trying to correct all of the inequalities in things.

Vinemount News

Rev. P. Dempsey of Fenwick, exchanged pulpits with Rev. John Sutherland of the Tapscott circuit, Sunday, May 19th.

The Rock Chapel Sunday School donated \$18.00 to the "Save the Child Fund" of Ontario.

Mrs. Harry Sturch, Fruitland, entertained the members of the Ridge road, Rock Chapel W.M.S. at her home Tuesday afternoon at their regular May meeting. Miss Dorothy Bowdlaugh, the president, presided. The following assisted: Meadames John Larmon, Joe Carlton, John Bowdlaugh, Joe Carlton, Enos Jeffrey, Harry Sturch. Mrs. Sturch, a faithful member and worker of the society, was presented with a life membership pin. Mrs. Enos Jeffrey read the order of service and Mrs. Arthur Walker made the presentation. Refreshments were served by the hostess.

The Vinemount Berries lost to the Tweedside Wildcats junior ball team Wednesday evening. Batteries were: Vinemount, Steve Kirpy, J. Essey; Tweedside, W. Co-well, Glen Millen. Score was 20 to 0 in favour of Tweedside.

When Annie Johnston arrived home yesterday.

Navy League Tag Day will be held on Saturday, June 1st.

Clarence Farrow of Detroit was a weekend visitor with his brothers.

Peach Queen's banquet at the Inn on Wednesday night next starts at 6.30 sharp.

Mrs. Gertrude Bissell of Seattle, Wash., is visiting with her aunt, Mrs. Mary Whitaker, Elizabeth street.

We regret to report that Mrs. Clarence W. Lewis is confined to hospital where she underwent an operation on Monday.

The Rev. Neil M. Leckie, spent a few days in Kingston last week, attending the Convocation and Board meetings at Queen's University.

Mrs. Neil M. Leckie and her friend, Mrs. Watson of St. Mary's have returned from a visit of a fortnight spent with Mrs. Wilcox in her home in Ithaca, N.Y.

The Rev'd and Mrs. Arch. Ward, Toronto, will be week-end guests of the Misses Cline, Grimsby Beach. Mr. Ward, who represents the Canadian Institute for the Blind, will preach at both the morning and evening services in the Baptist Church, May 26th.

Miss Marianne M. House, daughter of William and Mrs. House, Main street, who has been in training at the St. Catharines General hospital for the past three years, will graduate this month. The graduating exercises will be held in the Collegiate Auditorium on the evening of May 31st, with a reception at the Leonard Nurses Home afterwards.

Dr. H. G. Brownlee will attend the Convention of the Ontario Dental Association in Toronto, May 27th, 28th and 29th.

Mrs. A. Ryans spent the weekend in Hamilton, at the home of her daughter Mrs. C. Orr. While there she attended the Musical Festival in Centenary Church, in which her granddaughter Gloria took part.

Among those honoured by Queen's University at the Convocation in that seat of learning last week was the Rev. F. S. Milliken of Stewerton United Church in Ottawa. Mr. Milliken, who was given the degree of Doctor of Divinity, was the minister of St. John's Presbyterian Church in Grimsby more than twenty years ago, and is still happily remembered by old friends. The other person receiving honorary degrees on this occasion were Dr. Sealey, the new Provost of Trinity College, the Rev. John MacNab, of Montreal; Mr. George Drew, Prime Minister of Ontario, and Mr. R. S. McLaughlin of Ottawa, the last named gentleman has recently made a substantial gift to the coffers of the University.

7 p.m.—"Just a Touch."

Grimsby Baptist Church

SUNDAY, MAY 26th

Rev. Arch. Ward of the Canadian Institute of the Blind, Toronto, will be the Preacher at both Services.

Protect Child Life!

Caution your child about the changing traffic situation. There are more cars, travelling faster than during wartime. Many children too young to remember traffic still have forgotten how to protect themselves. Knowledge now may avert tragedy later.

Teach children to cross at intersections in city traffic. Be sure your child understands to walk with the green light. Caution children against crossing in middle of block or darting out from between parked cars. Be sure they know to look for turning traffic before crossing!

Walking facing traffic is a cardinal rule for highway safety. Teach children to walk facing traffic, preferably on the shoulder of the road allowing enough room for oncoming cars to pass at a safe distance. For night walking, wear something white or carry a flashlight.

"Playing in the street" is a leading cause of child traffic fatalities. Teach children to play in well-protected play areas. Even "blind" streets are dangerous because children may not be alert to cars which come into them from streets. Children should learn very young to stay out of streets.

NATIONAL SAFETY COUNCIL

Nuptials

SHARP—McGINNIS

Canon H. F. D. Woodcock officiated at the marriage on Saturday in Bishop Strachan School chapel of Alma Elizabeth (Betty) McGinnis, daughter of Mr. and Mrs. Leonard McGinnis, to Stanley Judson Sharp, Grimsby, son of F. S. Sharp of Chilliwhack, B.C., and the late Mrs. Sharp.

The bride wore eggshell slipper satin with full gathered skirt and circular train. An heirloom veil of Belgian lace formed a halo head-dress extending to end of train, and she carried white roses. Thomas Gilfoyle, Catherine Mee and Nancy Aikenhead were bridesmaids, gownned alike in cial blue crepe with boat neckline, and matching bonnets with draped veils. They carried white sweet peas. Mr. Willmott was groomsmen.

At the Granite Club, the bride's mother received in dove-gray crepe with sequined epaulettes, fuchsia flowered hat and corsage of sweet peas. For the wedding trip to Vancouver the bride went away in a honey-beige gabardine suit, with blue sheer blouse and flowered hat. The couple will live in Grimsby.

Advance Appeal Comparisons

The amount to be raised for Anglican Advance Appeal seemed meagre when compared to wartime spending, thinks Rt. Rev. Robert Jefferson, Bishop of Ottawa.

In emphasizing this statement he has offered the following figures: The Church—Pensions for Aged Missionaries, \$1,200,000; the war, 1 frigate;

Missionary Needs, \$1,400,000; the war, 1 frigate; Educational, \$100,000; 26 anti-tank guns; Social Service, \$55,000; 1 torpedo; Churches in Europe, \$90,000; 2 twin 4-inch naval guns; Churches in Britain, \$100,000; two fighter aircraft; General Synod Needs, \$305,000; two Bofors A.A. guns; Diocesan Needs, \$800,000; one corvette.

Yet these supplies of war which would seem insignificant a year ago, represent the amount of money needed to insure that the Church of England in Canada may play its part in world reconstruction.

In Memoriam

BOLTON—In fond memory of my dear husband, George Edward Bolton, who passed peacefully to his Eternal Rest, May 29th, 1942.

In loving memory of our dear mother, MARY JANE GARR. In our homes she is fondly remembered. Sweet memories cling to her name. Those who loved her in life sincerely. All love her in death just the same. Ever remembered by her family.

DYMOND'S

The Rexall Drug Store

Telephone 69 — Grimsby

W.C.T.U.

The Grimsby W.C.T.U. met, May 15, at the home of Mrs. John Millar. The devotional exercises were taken by Mrs. Spencer Merritt and Mrs. S. Hunt.

The annual report showed an increase in membership and in giving of time and money to help arouse "Thinking that will stop drinking."

In the study of "what prohibition has done for Canada" it was established that every removal of restrictions of sale of alcoholic beverages shows an alarming increase of sales. The results are seen in an increase in crime, immorality, accidents and poverty. There are fundamental laws which if obeyed give long and abundant life. If disobeyed life is destroyed. The length of a cat's life is only a few years. Other animals have their life term. On the same scientific basis man's life is one hundred and twenty five years. From the barbarian to the finest type of man there are a series of prohibitions or "cutting out" of life many destructive tendencies and an incorporating into life the habits that build a Christian civilization. The prohibition of alcoholic beverages "cuts out" an element destructive to progress. Learn to Live.

The world Bulletin "Around the World With Alcohol" informs us that in every country in the world many people recognize the danger in alcohol as a beverage. In France children are taught to use the fresh grape for health instead of the fermented product.

The election of officers resulted in:

President, Mrs. S. Murphy.
1st Vice President, Mrs. S. Hunt.
2nd Vice Pres., Mrs. R. Rosebrough.

Rec. Sec'y, Mrs. John Millar.
Treasurer, Mrs. F. D. Aikens.
Assistant Treas., Mrs. E. Burgen.

Superintendents:

Evangelistic, Mrs. Hugh Macdonald.
Flower Mission, Mrs. J. Aitchison.

Temperance in B.B., Mrs. Harry Rosebrough.

Citizenship, Mrs. F. D. Aikens.

Non Alcoholic Fruit Products, F. D. Aikens.

Red Cross, Mrs. T. L. Dymond.

Press, Mrs. John Millar and F.D. Aikens.

The Lincoln County Annual Convention is to be held on Thursday, May 30th, in Trinity Hall, Grimsby. The morning session, box luncheon, afternoon session and "White Ribbon Tea" at 6 p.m. will be in the Hall. All active members and husbands honorary members and friends are invited to the tea to meet the county delegates and the distinguished guests. The Trinity Service Club are to cater at sixty cents a plate. The evening meeting will be held in the Baptist Church.

Committee were named to prepare for the convention.

The meeting was closed by singing "Praise God from whom all blessings flow" and The Mispah benediction. Refreshments were served and a social half hour closed a very happy and satisfactory meeting.

Girl Guides

On Sunday morning, the 26th I.O.D.E. Brownie Pack and the 50th and 57th I.O.D.E. Girl Guide Companies held their annual church parade. The parade was from the Municipal Park to the Presbyterian Church. Members of the colour parties were Jean Raymond, Shirley Croft, Pat Harrison, Ann Terry and Leslie Harrison of the 50th Company and Diane Kemp, Carol Baxter, Albina Klovak, Ann Marie Murdoch, Margaret MacMillan of the 57th Company.

Those present included Miss Walsh, Divisional Commissioner West Lincoln, Miss N. Croft, District Commissioner, Mrs. C. M. Boehm, Lieut. 6th I.O.D.E. Company, Beamsville. Members of the Girl Guide Committee of the Lincoln County Chapter I.O.D.E. Mrs. K. C. Baxter, Co-venter, Mrs. S. C. Burgess, Mrs. R. N. Wolfenden, and Mrs. E. A. Buckenham, Regent, and several members of the I.O.D.E.

Cubbing

Friday evening found the Cubs engaged in a lively game of ball. Four teams were chosen with Dave

Alton, Art Henley, Ron Wicheruk and Doug Kelterborn as Captains. The first two teams mentioned were declared the winners. Art Henley proving to be the individual champion with three home runs to his credit.

Two Tenderpads, Murray Shaw and Jon Hand were welcomed to the Pack. This week's meeting will be cancelled as it falls on Victoria Day.

Vinemount News

Rev. P. Dempsey of Fenwick, exchanged pulpits with Rev. John Sutherland of the Tapscott circuit, Sunday, May 19th.

The Rock Chapel Sunday School donated \$18.00 to the "Save the Child Fund" of Ontario.

Mrs. Harry Sturch, Fruitland, entertained the members of the Ridge road, Rock Chapel W.M.S. at her home Tuesday afternoon at their regular May meeting. Miss Dorothy Bowdlaugh, the president, presided. The following assisted: Mesdames John Larmon, Arthur Walker, John Bowdlaugh, Joe Carlton, Enos Jeffrey, Harry Sturch. Mrs. Sturch, a faithful member and worker of the society, was presented with a life membership pin. Mrs. Enos Jeffrey read the order of service and Mrs. Arthur Walker made the presentation. Refreshments were served by the hostess.

The Vinemount Berries lost to the Tweedside Wildcats junior ball team Wednesday evening. Batteries were: Vinemount, Steve Kirpy, J. Ensey; Tweedside, W. Cowell, Glen Millen. Score was 20 to 10 in favour of Tweedside.

When Anne Johnston arrived home yesterday.

Obituary

MRS. HUGH NELSON

The death occurred in St. Peter's Home, Hamilton, at noon on Wednesday, of Mrs. Hugh Nelson, for many years a resident of Grimsby.

Deceased lady suffered a seizure on Friday last from which she never rallied.

While funeral arrangements have not as yet been completed, it is expected that the funeral will be held on Saturday afternoon, with interment in St. Andrew's graveyard.

Girl Guides

DIVISION OF WEST LINCOLN

For some years camping facilities for the Division have been sought in vain. Now, thanks to the indefatigable efforts of Mrs. C. M. Bonham a site has been secured and different units of the Division will go into camp on Thursday, 23rd May, for a week-end.

The Camp is a large cottage at Grimsby Beach, with fields, woods and bench to offer a choice of camp activities. Nearby is a smaller cottage generously lent for the occasion.

The Camp Commandant will be Mrs. M. Hewitt, Blue Cord Diplomat Guide, assisted by Miss Margaret MacNeil. The enrolment is twenty-two Guides.

On the Sunday the Guides of the Division will have a one-day camp of their own to increase their nature-love and to enjoy the comradeship which leading their separate units does not often permit them to have. The District Commissioner will be in residence throughout.

The Hamilton Division has hospitably invited our Guides to share the fortnight long training at Camp Kiawa and it is hoped that some Guides and a Guide will have the benefit of this in July.

Pirates Lead A Hectic Life

Paul Henreid lived the most strenuous phase of his life during this three months of work as the Dutch pirate, Captain Laurent Van Horn, in "The Spanish Main."

Among Henreid's various chores he had to...

Engage in eight bitterly contested fights with fists and rapier.

Be clubbed on the head by a sword hit in the hand of Antonio Moreno.

Be spread-eagled for a week's shooting on a prison stone floor.

Be slashed on the wrist by Walter Slezak.

Be trusted to a foremast and flogged with a cog-o-nine-tails.

Be shot in the back by Barton MacLane.

Leap into the sea from the alter of a Spanish galleon.

Maureen O'Hara and Walter Slezak star with Henreid in "The Spanish Main," produced in Technicolor, with a huge supporting cast that includes Binnie Barnes.

This thrilling romance of the Caribbean will be shown at the Romy the first three days of next week.

A speech expert is the person who can understand the lingo of the teen age group.

Utopia must be the place where one doesn't have any trouble in securing a handy man to do odd jobs.

Another good way to stay busy is going around trying to correct all of the inequalities in things.

MILK TICKETS

and the CHANGE in the PRICE OF MILK

The Ontario Milk Control Board has announced that:

"Milk Tickets purchased at the subsidized price (prior to June 1st) and in the hands of consumers on June 1st will be worth 2c per quart less than the legal price which will be in effect on June 1st."

This means that it will be necessary for consumers using these subsidized tickets, to pay an additional two cents per quart along with each ticket on and after June 1st, when the distributors will revert to the legal prices in the various markets in Ontario.

BEAMSVILLE NEWS

Will Form Branch V.O.N. For County

For the first time in Canada, a County Branch of the Victorian Order of Nurses will be formed in this, the County of Lincoln. This highly respected and beneficial service is in operation throughout the Dominion in a great majority of the towns and cities, but the formation of a County Branch is an innovation to the Order.

At a meeting, which was largely attended, and which was held on Tuesday in the Kitchener, it was decided after considerable discussion to operate a Branch in Lincoln County.

Miss Mary Ferguson of the V.O.N. was present at this meeting, and outlined the many features of the service rendered by the V.O.N. Also speaking at the meeting was Warden Johnston who stated that the County was very much interested, and could be called upon for co-operation when the need arises.

A Board of Directors consisting of ten persons from throughout the County was installed, and from this will emerge in the near future, officers, to carry the proposed system to a successful conclusion.

Cadet Inspection

Although a deluge of rain threatened to create havoc with the annual Cadet Inspection of the Beamsville High School Cadet Corps, the breaks were with the students, and everything went off to perfection.

Moving about the parade grounds in a brisk military manner, the six platoons presented a very smart picture, a remarkable feat, and something of which the instructors can be very proud.

Following the general salute, the Cadets went through a series of drills and manoeuvres, which brought a round of applause from the parents and interested citizens present to view the inspection.

The Beamsville High School Cadet Corps is made up of six platoons, three platoons of boys and three of girls, and although Cadet Corps in other larger centres may have the edge on the Beamsville group, their work on Tuesday was of a very high calibre.

Besides the drills, demonstrations were given in first aid, and in signalling, using both the Morse and semaphore systems. Another highlight was the physical training class from the girls platoons, who did a series of rhythmic gymnastics under the direction of Jocelyn Foster.

On the reviewing stand to take the salute was Lieutenant Wright of the R.H.L.I., flanked by F. J. Thomson, Chairman of the Board of Education, A. G. Richmond, principal of the High School, Cadet Captain Marie Welch, and Miss M. McLaren instructor of the girls platoons.

Following the inspection at the school grounds, the Cadets paraded through the Village, and a large Tuesday night crowd witnessed the young Cadets march in triple files along Ontario and King Streets and thus back to the school.

Beamsville W.I.

The May meeting of the Beamsville Women's Institute was the day for the election of officers, and with Mrs. Fred Jeffrey conducting the election, Mrs. Gordon Philip was voted upon as the woman who will fill the President's chair for the 1944-47 term.

Following this, the many seats of office were filled and include the following:

Hon. President, Mrs. R. A. Saunders; 1st Vice President, Mrs. J. A. Middaugh; 2nd Vice President, Mrs. John Logan; Secretary, Mrs. Wm. Fairbrother; Treasurer, Mrs. Paul Foster; District Director, Mrs. R. A. Saunders; Directors, Mrs. Fred Jeffrey, Mrs. Wm. Lohrock, Mrs. David Stevens; Mrs. Chas. Street, Mrs. J. F. Dunsmore, Mrs. Harry Banks, Mrs. A. Scott; Pianists, Mrs. S. Russ, Mrs. Chas. Tallman; Flower Convener, Mrs. Chas. Watterworth; Social Service, Mrs. Wm. Southward, Mrs. Chas. Sweet; Press and Publicity, Mrs. Fred Jeffrey.

The many and beneficial activities of the W.I. resulted in a very successful year from a financial standpoint, with the result that total receipts amounted to \$1084.50.

Mrs. Harry Banks as past secretary of the W.I. gave a splendid and detailed report on the work undertaken by the Beamsville branch, including much work done on behalf of institutions which depend to some extent on organizations such as this, and to which the W.I. contributes so nobly.

Prior to the social and concluding part of the meeting tribute was paid to the retiring president, Mrs. R. A. Saunders, who has worked untiringly during the past year, and as a token of appreciation for her work, a beautiful bouquet was presented to her.

Servicemen's Night Of Fun

One hundred and seventy-five acceptances have been received to date for the "Night of Fun," Servicemen and Women's Entertainment, which is to be held on June 7th at the Community Hall.

At a Committee meeting on Monday night, it was decided that all ex-service men and women, whose names do not appear on the records of the Beamsville-Clinton War Services, and who have moved to this district since hostilities ceased, will be invited to attend. This is a very grand way of welcoming these persons to this district.

Also to be included in the affair, are the parents and next of kin, of those who paid the supreme sacrifice.

Invitations to all those who worked with the war services, also to members of Councils for Beamsville and Clinton, and representatives of all civic organizations, will be invited to attend the event, which promises to be a very gala affair.

The reception Committee, composed of Reeve R. A. Saunders, Reeve George Montgomery and A. G. Richmond, Principal of the Beamsville High and Vocational School, will extend a cordial welcome to the men and women attending.

With an excellent floor show, supplied by Horace Lapp and his talented group of entertainers and his top band, it looks as if the men and women will spend a very delightful evening, guests of organizations and the individuals who during the war did such fine work on their behalf.

St. Andrew's L.A.

Although a heavy rainfall limited the attendance of the Ladies' Association meeting at St. Andrew's Presbyterian Church, last Thursday, a successful meeting was held, with Mrs. J. Treviyan and Miss M. Ryckman conducting the Devotional Period.

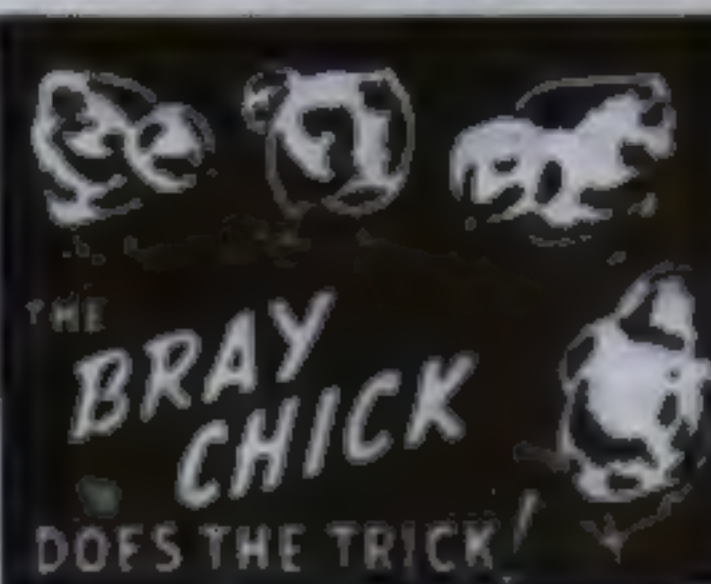

The Roll Call was answered with a verse from the Scripture Calendar for the month of May.

Following this, considerable time was spent discussing the congregational supper which will be held in June, as part of the agemonies scheduled for the twenty-first anniversary of the Church. The supper is to be held on the 19th.

The hostesses for the social period of the meeting were Mrs. Albert Stewart and Mrs. K. Marlett.

I.O.D.E.

The Lena Davis Chapter, I.O.D.E., will observe their annual Church Parade on Sunday morning, and along with the I.O.D.E. 6th Company Girl Guides, will attend the morning service at the First Baptist Church.

LASTING RELIEF

New Doctor For Beamsville

We take much pleasure this week in welcoming to Beamsville Dr. John K. Moss who has started practice as an associate of Dr. H. D. Latham.

The shortage of medical men in the Village has been acute, especially during the war years, and the arrival of Dr. Moss will be of great assistance not only to Dr. Latham, but to the people of this district.

Dr. Moss hails from the Valley town of Dundas and served in the Medical Corps during the war recently ended. Since his discharge from the Corps, he has spent six months at Hamilton General Hospital.

With his wife he has taken up residence on Albert Street, and will work with Dr. Latham from his King Street office.

Lawn Bowling

The Beamsville Lawn Bowling Club will open officially their 1944 season next Monday night. Considerable work has been put on the greens, and they are in fine shape, ready for the many enthusiastic bowlers who will commence this popular pastime on Monday.

With around forty members, the Club will welcome new members, of which there are many interested throughout the district.

The first tournament will be held on Saturday, June 1st, and we'll have more on that next week. As a matter of fact, we intend to run a weekly column on the events coming off at the Beamsville green. Watch for it—starting with next week's issue.

News From BEAMSVILLE High School

Traditional green and gold colors were set aside for once and the ever popular red white and blue was used to decorate to great advantage the high school auditorium for the Cadet Dance, which was held last Friday night.

On a distinct military basis, some hundred and fifty cadets from Beamsville, Grimsby and Smithville tripped the light fantastic to the music of Bert Gillespie's orchestra, and everyone had a gala time.

A special thanks is extended to Jocelyn Foster and her helpers for the grand job of decorating.

A complete reversal of the last hop, was the abundance of fashions from out of town, brought in by the local yokels. Last time it was vice-versa—remember!

One of the gals had a visitor from Toronto for the whole weekend. Imagine.

The scarcity of men in fifth form, two to be exact, left the fifth form gals in a rather serious predicament, result being, that not many of the gals attended the big "do". Guess they figured that their other friends would feel out of place.

One of the gals from R.H.L. attended a dance at St. Andrew's College in Toronto on Friday night. And speaking of Toronto, a brother and sister were night-clubbing at the Top Hat on Saturday. Natch—they didn't attend together.

Many groans are creeping out of fifth form, where the students are slugging away with stacks of homework every night.

The Departmentals are a tough set-up, and our hearts ache for these "pretty-near-through" types. Two to three hours homework is no cinch, and who do they think they're kiddin'.

Final dispatch on the feud mentioned in last week's column, between West Ave. and William St. shows a big bright "nought". One gal gave it up as a bad job.

About thirty Cadets attended the Baptist Church on Sunday night. Following the service, many of the said Cadets took advantage of the beautiful spring night to walk their "ever-lovin'" about the byways of the Village.

Short Hanna. Harve out with a wee small fourth former on Saturday night. Poor boy got quite wet in the big rain that fell on his way to Lincoln Avenue.

Seems as though some boys don't know when to go home after a date. I hear that "Peg" had to put his foot down.

Three of the boys have taken up riding now, according to a report from St. Kitts. Fine thing when horses get the preference.

What ever became of the child who was born with a silver spoon in his mouth?

If a man loses his shirt nowadays he will have a hard time getting a new one.

Beamsville News

Sturgess Family Have Fine Record

After thirty years service with the Canada Army, Company Sergeant Major Ron Sturgess has hung up his boots, or what ever it is that Sergeant Majors hang up.

Ron joined the 96th Battalion of the Linc's and Well's in 1915, and went overseas with this unit the same year. He returned to Canada in 1919. Deciding that army life was a pretty good thing, he then joined the Royal Hamilton Light Infantry as a sergeant, and has been with the R.H.L.I.'s ever since. For the past fifteen years he has been Company Sergeant Major, and has instructed thousands of men in the past war, while stationed at the Exhibition grounds in Toronto.

We think that the Sturgess family will establish somewhat of a record, for along with Ron's thirty years of service, come three brothers, and combined their years of service amount to one hundred years. Edward with thirty years and Alfred with thirty-two years, plus another brother's eight make this Sturgess family just about tops in military service in these parts.

Ron will reside in Beamsville with his mother, Mrs. Alice Sturgess, and will take up occupation here.

Boy Scouts

Sunday, June 2, is going to be a big day for the 1st Beamsville Troop of Boy Scouts, and also a big day for the citizens of the village.

Plans are under way for a gigantic parade in connection with the dedication ceremonies for the opening of the Scout Building, which is now nearing final completion. The Troop thus becomes the first Scouts in Canada to have a building they can call their own, and the foresight of the men who have made this a reality are deserving of the highest praise.

Last night carpenters were working at the Scout Hut getting things in shape for the big occasion, and last week a thirty-foot flag standard was raised in front of the scout building.

To guarantee the 1st Beamsville Troop of a dedication ceremony worthy of the occasion, it is estimated that close to a thousand Scouts and Guides will parade in Beamsville on June 2nd. Beamsville Citizens Band will also participate in the ceremony.

The actual dedication ceremony will be performed by members of the local clergy, and at least two top ranking Scout Commissioners, Provincial Commissioner, Lieutenant Colonel Lionel Milen, D.S.O., V.D. and Field Commissioner A. S. Fleming will be in attendance, along with other dignitaries, prominent in the field of Scouting.

Men's Buttons

George Washington had no aspirations to be a fashion plate, but he did start a fad for pink conch shell buttons on men's coats. It all happened because he bought some conch shells from a seedy sailor—then the general's thrift urged him to make use of them, so he had buttons made, each a little bigger than a quarter and with a silver drop in the middle. They looked very fine when he wore them on his black velvet coat, and at once became the fashion.

by GORD MCGREGOR

Birds are notorious for their selection of places to build a nest for the little woman, and a good case of this, exists down at the Beamsville Station.

A robin has built its nest in a section of the boom of a large crane used for lifting rocks into flat cars, and when the operator hooks onto a large four ton rock, believe me, it's really rock a by birdie. Last week misfortune overcame Mr. Robin, when an egg fell from the nest, but now when the machine is really rocking, the nest is covered over by the operator to prevent further disaster.

The pike have started in Dunnville, although the big ones haven't got going yet. This is what one low-headed kid told me on Sunday, as he nonchalantly dragged five three to four pound beauties along on a piece of string.

Logan Inn has had its first guests, and they consisted of a group of very charming gals from University of Toronto, who are spending the week at Lincoln's leading summer resort.

Woops! That excavating that was supposed to start last week for the Beamsville Fire Hall hasn't started yet.

By the looks of things, the kids are going to have all their sky-rockets, roman candles etc., etc., all shot up before the 24th. Non-existent for the past few years, a fair sample of fireworks has been placed on the market this spring. Firecrackers are still nil.

We like the story of Elwood Comfort's Thirty School Chorus, who took three seconds for public school chorus at the Music Festival in St. Catharines. In the one class the Thirty was noised out of first place by a chorus under the direction of Miss Mary Gillespie—a former pupil of Mr. Comfort's.

The Beamsville Citizens Band will play at the big sports day to be held in Grimsby this Friday.

Stock phrase: "Million dollar rain." "It's a Godsend" and "crop saver." Yeah—but how about the rhubarb?

Job had patience but we bet he never tried to read a newspaper which had been left in the rain.

It's Seed Cleaning Time

CLEAN seed means bigger and better crop yields for farmers. Seed should be cleaned during the winter months to be ready for spring planting.

Seed cleaning plants, such as shown here, are available to farmers in all parts of Canada.

Women Of Canada Live The Longest

Despite the fact that from the earliest times in the history of Canada the males have outnumbered the females, more women than men reach and exceed the age of 90 years, according to records maintained by the Dominion Bureau of Statistics. The increase in the population over 90 years of age since 1901 was 110.4 per cent, or from 3,871 to 8,145. Women over 90 years of age increased from 2,002 in 1901 to 4,809 in 1941, and men in the same age group from 1,770 to 3,336, the percentage increase amongst those of the "weaker sex" over 90 years of age since 1901 having been 130, and amongst the men, 88. Since the turn of the century to 1941, the population of Canada increased 114.2 per cent or from 5,571,315 to 11,506,665. It thus is revealed that the women in the "over 90" group have, during the 40 years since the census of 1901, increased their numbers at a faster rate than the general population, whereas in the same respect, the men have fallen short of the mark.

Good English Oak

Britons throughout the Commonwealth may be expected to feel a thrill of satisfaction on learning that the timber for the rebuilding of the House of Commons is to be felled at Stratford-on-Avon. Three and a quarter centuries roughly take us back to Shakespeare's day, so it is highly probable that among the trees to be used will be some that he saw or rested beneath.

We are reminded of the huge oaks felled at Whiligh in Sussex for the vast new roof of Westminster Hall. Those were trunks that, even after the sawing away of their outer wood in shaping, still showed

Campaign Against Insects Has Begun

HUNDREDS of kinds of destructive insects which have been dormant for months are becoming active and preparing to attack farm and garden crops, forests, stored products, man and animals. Entomologists, Dominion and Provincial, are now ready with counter measures for control. The Dominion Dept. of Agriculture's National Collection of Insects and its associated library and laboratories has an essential part in the insect control campaign. It maintains the bureau of identifications and classification of insects to assist the entomologist, the farmer, the gardener, the forester and the warehouseman.

from 500 to 600 rings. Each ring represented one year's growth; each of those trees was growing when Chaucer lived and wrote his Canterbury Tales.

The only time some men will dig in the ground is when they are trying to find some fishing bait.

CHECK YOUR CARS

Every year Canada and the United States receive a terrific shock when statistics of violent deaths on the continent's highways are made public. We pride ourselves on the strides made in transportation, yet in our search after speed thousands are killed annually.

A nation-wide traffic safety campaign which will run until the end of June commences in Canada this week. Great emphasis will be placed on observing speed regulations, driving carefully in cities, stopping at dangerous intersections, giving correct signals, and so on. This is all to the good, and strict enforcement of any violations is definitely needed.

But traffic safety is more than that. The mechanical condition of the automobile is a major factor in causing accidents, and this has been accentuated by the fact that most cars on the road are several years older, and are running on far poorer tires, than would be the case in normal times. Poor brakes, faulty headlights, worn tires—all these can contribute to serious death-dealing accidents.

Until new cars and tires are available in greater supply, motorists should consider it a grave responsibility to make sure that their cars are in the best mechanical condition possible. A complete check-up should be made by every driver before he moves on to the crowded summer highways where Death is a ghostly passenger in every vehicle.

LUMBER SCARCITY
supplies are practically unobtainable.
The British Columbia Loggers' strike is not going to help the situation, in fact it only helps to make it worse. Mr. Johnson says that it is impossible to get one piece of B.C. lumber or timber and if the strike goes on there will not be any supply from the coast for months to come.

WILL LICENSE
The Woolverton Mountain road for the sum of \$4,500. Township Engineers, members of council and the contractor will meet on the job this Thursday morning.
If and when the work is undertaken, under the Cooke tender, the earth mound and rock formation will be blasted out and the whole mass of debris pushed by bulldozers over the west side of the present roadway into the deep gully below.
Under the present plan no rock will be quarried out for crushing and use upon the roads as was the original plan when tenders for the work were first called for. To have done this would have made the cost of the work almost prohibitive.

MAGNETIC PICKER
was on No. 2 highway from Hamilton to Bradford where 60 pounds of metal were picked up. On the Queen Elizabeth Way from Burlington to Stoney Creek, 42 pounds found their way to the magnets.
"The magnets pick up everything from tacks to car jacks," a spokesman of the Highways Department explained. "Every trip yields an almost unbelievable number of nails, bolts, nuts, pieces of scrap, automobile tools and hundreds of metal bottle caps. We feel reasonably certain that many motorists are saved from tire trouble and perhaps accidents by this service."
His one regret was the fact that the outfit does not pick up broken glass.

SCHOOL CADETS
tation of 200 cadets, three platoons of boys in No. 1 company and three platoons of girls in No. 2 company, also the band. The officers of No. 1 Company are Major G. Marr (O.C.); Capt. G. Brownlee (2 I.C.); Sgt. Maj. W. Fisher; Lieut. I. Marr; D. Riches; D. Cole; K. Martin; Cpl. D. Bedford; A. Bryden; E. Farrell; R. Chivers.
The officers of No. 2 Co. are Major D. Metcalfe; Sgt. Maj. E.

Beaconsfield Band, the crack musical organization of Lincoln county will be in attendance at the Legion sports day tomorrow afternoon and at the dance in the Arena at night.

Notice is given that the Quarterly Meeting of the Advisory Committee of the Lincoln County Citizens' Committee will be held in the County Buildings, St. Catharines, on Wednesday, May 23rd, 1946, at 8:30 p.m.

Cornwell; Lucia J. Eaton, B. Hand, A. Jeffries; Cpl. I. McPherson, N. Gordon, R. Manning.

The attention of the audience and enthusiastic members of No. 1 Company was then diverted to the girls' physical culture display, Miss I. Morgan, P.T. Instructor. Mr. Don Awde, the boys' P.T. Instructor and also conductor of the Bugle Band, put the boys through a vigorous P.T. table. The spectators growing colder with the chilly breeze blowing across the campus, watched enviously as these boys really went to work on those exercises. A platoon of boys went through a snappy rifle drill, no longer holding their rifles like shovels.

Then the band struck up again, leading the parade with the cadets still stepping in grand style to the front of the school for the Flag-Lowering Ceremony. Capt. F. V. Smith gave a short address to the public, thanking them for coming and inviting them to stay for the Cadet Dance. After silent tributes to those from the school who gave their lives for their country. Rev. F. McAvoy gave a prayer, followed by "The King" played by the band.

As the flag was lowered Mr. Awde played "Retreat" on the trumpet. Major Beale then spoke to the cadets, and "Dumfries" was given.

Preceding the inspection the Cadets held a church parade in the morning to St. Andrew's Church, where Rev. E. A. Brooks addressed the students and Major Marr read the scripture.

Before going into the dance hall specially decorated in red white and blue the cadets were treated to ice cream. A large number of R.E.V.S. cadets attended the dance besides a lot of ex-grads and visitors.

COUNCIL BACKS
county council would continue to give the committee its unqualified support and would hold the cheque in abeyance in the hope that the city council and the Citizens' Committee will come to some agreement; and that the "city council will live up to its agreement."

A communication was received from the county council of Lennox and Addington requesting support of a resolution to secure government co-operation and assistance, due to the draining of the rural population to urban centres, to settle community centres throughout rural districts with citizens who would be beneficial to the community and to recommend also that the various government departments either build or move from more congested areas necessary houses, to make available more agricultural help and also to establish small tradesmen in rural areas.

A resolution from the Grey County council was received objecting to and protesting the reduction in the premium on hogs in face of the decreased marketing of pigs and requesting the immediate replacement of bonuses.

Support was also requested for a resolution from the Welland County council petitioning the Provincial Legislature to amend the Election Act to provide for time off, both in rural and urban areas, for voting in municipal elections.

A communication from the Lincoln County Crop Improvement Association requested spraying of road allowances to control weeds by the county, one from the Department of Agriculture requesting appointment of a weed inspector and one from the Lincoln County Music Festival requesting a grant as in former years.

The Lincoln Loyalist Chapter of the Imperial Order, Daughters of the Empire, Grimsby, requested support for their War Memorial Fund to provide scholarships for children of ex-servicemen.
The Department of Highways notified the council by letter that it was not in favor of the payment

REAL ESTATE

The following properties have just been sold through the office of Winifred Coadon, Realtor.

7 acres, Free farm, with fine residence, and buildings, located on No. 8 Highway, Beamsville, to C. E. Blackmore.

15 acres, Wilmers, the Fruit farm and residence, formerly owned by E. Hathaway, to a local buyer.

6 Main St. W. Grimsby. Store and apartment, now owned by Mrs. Wm. Gibson.

Through the Pettit and Whyte agency, Walter Komarnanski, of Grimsby Centre, recently discharged from the army, has purchased the Mrs. Alvin house and acre of land at the corner of No. 8 Highway east and Welles Road.

of a lump sum yearly or monthly for privately owned cars of county engineers or road superintendents. The letter recommended that council supply a county owned car or give mileage rate and added that the Department will subsidize either of these two moves. Council was also notified that the present bylaw for payment of a lump sum would not be approved past 1946. Following the reading of the communication the council adjourned to committee work.

About Bananas

Bananas may be left in an open bowl to ripen, but a better way is to leave them in the bag in which they were purchased, and to put a moistened wad of damp absorbent paper in with them to keep the atmosphere just humid enough to prevent the fruit from drying. The Department of Agriculture says that the fruit usually ripens much better in a closed but not airtight container (such as a paper bag), because the gases given off in maturing, if confined around the fruit, hasten the process.

Bananas are just right for eating fresh out of hand when the peel is golden yellow, flecked with brown. Even when ripe, however, they never should be stored in the refrigerator.

NOTICE

To all my customers. I am moving from 13 Elizabeth St. On and after May 27th, I will be located at 30 Depot St. where I will be pleased to continue doing your sewing.

Check Yourself!

DO YOU ALWAYS—

1. Signal before turning or before coming to a stop?
2. Come to a full stop at a stop sign?
3. Obey traffic lights?
4. Give the pedestrian a chance, even though he may not have the right of way?
5. Drive in and turn from the proper traffic lane?
6. Refuse to drink before driving or while driving?
7. Know and observe the rules of the road in your community?
8. Drive with extra caution in fog, rain or snow and on wet or icy roads?
9. Keep alert when driving?
10. Drive within speed limit?
11. Your future driving that counts. Be a good driver—keep out of trouble—prevent accidents.
12. Drive slowly in school areas or whenever you observe children on or near the road. You wouldn't take a chance with your children, so please lookout for other children.

Barber Pole Is Tipping Origin

The red and white barber's pole in evidence before their establishment, is a symbol handed down through traditional customs of years ago.

Although not in fashion today, barbers in former years performed minor surgical operations—such as bleeding, regarded in those days as a cure for most ills.

It was necessary, in this operation, for the patient to grasp a staff or pole, with bandaging to bind the patient's arm. These staffs or poles were always kept in readiness.

When not in use, this so-called surgical equipment, was placed in front of the door as a symbol of the barber's dual proficiency.

Later it became customary to paint a pole red and white, instead of the pole as used. Red stripes signifying the blood-soaked bandages. Hence the red and white poles are relics of barbers' advertisements of ancient times.

Tipping appears to have originated at that time, for barbers received no definite payment for the bleeding operation.

Therefore, whatever the patient deemed the operation worth, was given as a tip.

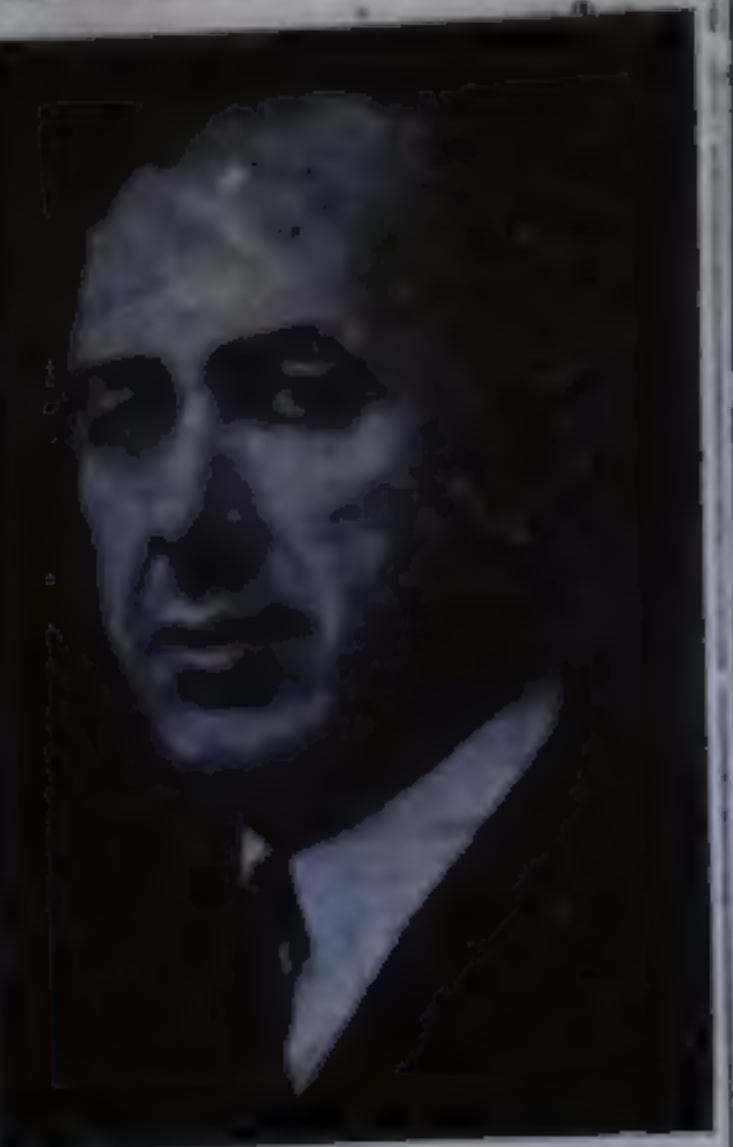

England adopted the mode of tipping of feeling—finding it an excellent means of securing quick and efficient service.

The small bones appeared, hung conspicuously in inns or road-houses, over which a sign bearing the slogan, "To insure promptness" was attached.

From the initial letters of these three words, our word "tip" was derived. It is interesting to note, that the French word "Fourboire" having the same objective, means, "drink money" or "for drinking." The box "To insure promptness" has passed into oblivion, but the "tip" has remained, assuming greater proportions and now in use universally.

Tipping to a certain degree is "to pay undeserved cash-tribute" as barbers and waiters, should extend the same courteous service, whether the tip is large or small. Elimination of this custom would force the itching-palms to really work for a living and the hat check boy or girl, may in time become more worthwhile members of the human race.

Red-caps, pullman porters, taxi drivers, waiters, barbers and many

PERSONNEL CHIEF: William Manson who has been appointed vice-president of personnel for the Canadian Pacific Railway with headquarters at Montreal. His company east after 26 years with the C.P.R. in the West where he had risen to the post of general manager after experience in all four western provinces, including service at Vancouver as general superintendent of the important British Columbia district. Two intensive tours of eastern lines right through to the Atlantic seaboard in the last 30 months gave him a complete picture of the Canadian Pacific system.

others of their kind, are not subjects of charity.

We tip them through cowardice and no called habit, rather than from generosity. Most of these people receive adequate wages for their occupation or would get it, if their employers did not depend on the customers to supplement the employees pay.

We do not yet give a quarter to the girl or man behind the grocery counter, sales clerk or telephone operator. Nor a five cent tip to the bus driver, conductor, milkman or baker.

When the average person takes into consideration the amount of additional money necessary for tipping, while contemplating a trip by water or rail, they are often dismayed to find a large increase in the budget planning.

It is not generally known that waiters, applying for a position in larger French and American hotels, actually pay the institution for this privilege. As the returns from tips are more remunerative, than any stable salary for that kind of work.

However, custom decrees we must pay it to the barber, taximeter, waiters, bellhops and others. So— we pay it.
